DIRECTIONS FOR USE:

Shake well before using.

DIRECTIONS FOR USE WEEDS:

Spray weeds thoroughly, using a coarse nozzle setting to reduce drift. Thorough coverage is extremely important. For spot treatment of individual weeds, apply the solution to the center of plant to the point of runoff. When spot treating individual weeds in lawns, avoid spraying surrounding grass (lawn) as injury will occur.

The best results are obtained with young, actively growing weeds, less than 12cm high. Finalsan Ready -to-Use works best during warm and dry conditions. Application during cold weather may delay appearance of plant damage. If rain falls within 3 hours of treatment, an additional spray may be required. Plant damage will be visible from a few hours to 2 days after spraying. Repeat treatment every 2 to 3 weeks to control new weeds growing from seed and re-growth from bi-annual and perennial weeds. Avoid spraying desirable plants. Thoroughly clean equipment after use.

DIRECTIONS FOR USE: MOSS AND ALGAE

Shake well before using. Spray moss and algae thoroughly as complete coverage is extremely important. Plant damage will be visible from a few hours to 2 days after spraying. One application may control moss for up to one year. Repeat treatment if re-growth occurs. Avoid spraying desirable plants. Do not apply to moss or algae in lawns. Thoroughly clean equipment after use.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. May irritate eyes. Avoid contact with eyes. Use only in well ventilated areas. For good hygiene practice, wear gloves when handling this product.

Avoid direct application to ponds, streams and lakes. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

If this pest control product is to be used on a commodity that may be exported to the U.S. and you require information on acceptable residue levels in the U.S., visit CropLife Canada's web site at: www.croplife.ca.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Call a poison control center or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

Do not reuse empty container. Dispose of empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.

OPTIONAL STATEMENTS:

- Herbicidal soap
- Moss Killer
- Kills moss and algae
- Eliminates unwanted vegetation quickly
- Won't stain bricks, concrete or asphalt
- Non-staining
- Kills within hours
- Fast acting
- Kills weeds, algae and moss
- Kills moss, algae, lichens and liverworts
- Kills grass and weeds
- Kills (moss) (weeds) quickly
- Weed, moss and algae killer
- On moss, algae, liverworts and lichens one application may last up to one year.
- FINALSAN™ is a fast-acting weed, algae and moss killer.
- FINALSAN™ does not stain concrete, pavement, stucco or wood.
- FINALSAN™ is a non-selective herbicide that controls many common annual weeds.
- FINALSAN™ suppresses the growth of some bi-annual and perennial weeds.
- FINALSAN™ can be used in cultivated areas prior to planting grass, flowers and vegetables.
- Areas can be re-sown five days after treatment.
- FINALSAN™ can be used on weeds, algae or moss growing on or around buildings, sidewalks, fences, trees, bark mulch, driveways, patios and gravel.
- Best results are obtained with young, actively growing weeds, less than five inches in size.
- Avoid spraying during rainy weather.
- Best results are obtained in dry weather.
- Works in cool weather.
- Also works in cool weather.
- Non-selective herbicide
- Non-selective grass and weed killer
- Non-selective
- Treated surfaces may be slippery when wet
- Rainfast in 3 hours
- Leaves no harmful residue in the soil
- Biodegradable
- Treats xxx m²
- Patent pending
- Sold under a license of W. Neudorff GmbH KG
