DIRECTIONS FOR USE:

For use indoors and outdoors as a crack and crevice treatment to control ants

General Directions: SHAKE CONTAINER WELL. Gently insert the extension tube into the spray nozzle before using. WILSON® ONESHOT™ Jet Foam Ant Killer is designed for applying into cracks, crevices, or tight areas that are difficult to reach. The foaming action of this formula completely fills tight crevices leaving an insecticidal active residue.

Indoor Use: Only for or the control of ants indoors. Spray directly into cracks and crevices particularly under baseboards where these pests like to go. Spray into hard to reach places, behind refrigerators, washers, under sinks, between cabinets, under counters and other places where these pests hide, such as around door and window frames. Do not spray Wilson OneShot Jet Foam Ant Killer in areas where it can be mopped away.

Outdoor Use: Only for the control of ants outdoors. Gently insert (the wand or application wand or the extension tube) as far as possible into cracks and crevices in driveways, patios, sidewalks, or interlocking brick where ants hide. (Pull or Push or Depress (trigger or nozzle) and allow foam to fill the area. Stop spraying when the foam comes back out the crack or crevice. For best results, treat all cracks and crevices in the area where ants are found.

KEEP PETS AND CHILDREN AWAY UNTIL RESIDUE IS DRY.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Do not place in hot water or near radiators, stove or other sources of heat, or store at temperatures over 50°C. Do not spray near open flame or spark, or while smoking. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin, or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOODSTUFFS, FOOD UTENSILS, FISHBOWLS OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY. DO NOT CONTAMINATE FOODSTUFFS. Do not use in any area where food may be exposed. Do not use in bulk food storage areas. Do not use in cupboards where food or cooking utensils are stored. In homes or dwellings, remove or cover all exposed food and cooking utensils before spraying. Thoroughly wash all surfaces that might contact food before reuse.

FIRST AID: If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. **If in eyes,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take the container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

DISPOSAL: When container is empty, press the valve to release all remaining pressure. Dispose of empty container in household garbage. Do not puncture or incinerate. This container may be recycled in communities where (steel) aerosol can recycling is available. Before offering for recycling, empty the can by following the procedure described above.

For additional product information or in case of emergency, spills or fire, call toll-free 1-800-268-2806.
