GENERAL INFORMATION

For non-selective spot treatment of individual weeds. Visible effects occur soon after treatment, and actively growing susceptible weeds are controlled within 1-2 days. Leaves no harmful residue in the soil.

GREEN EARTH® Ready-to-use non-selective herbicide is recommended for control of undesirable plants in and around the garden, on patios, sidewalks, driveways, under fences, and around established trees and shrubs.

GREEN EARTH® Ready-to-use non-selective herbicide controls the following annual weeds: black medic, chickweed, common ragweed and lamb's-quarters and top growth control of the following perennial weeds: dandelion, wild carrot, plantain (broad leaved and narrow-leaved) and quackgrass.

Sure-Gro IP Inc.

DIRECTIONS FOR USE

No dilution or mixing is required. For best results apply in sunny warm weather to actively growing young weeds less than 10 cm tall. Avoid spraying on windy days.

To apply, turn the adjustable nozzle to achieve the desired spray pattern. For most applications, use a coarse spray that can be targeted to uniformly and thoroughly wet only unwanted foliage. Complete coverage is necessary for best results. When spot treating, use a shield of cardboard or plastic around desirable plants.

To control top growth of dandelion and plantain in lawns, adjust nozzle to produce a straight stream spray pattern. Hold the container close to the weeds so that the stream can be controlled to spray just the center growing point of weed. Grass that is sprayed will also be burnt but regrowth will occur.

Weeds that are mature, dormant or hardened due to moisture stress tend to be more tolerant to herbicide treatments. A repeat treatment of perennial regrowth and large weeds will be required.

Only contacted vegetation will be affected. Rainfall or watering within 1 hour of application will reduce degree of control.

CAUTION:

Avoid all contact to desirable plants. Overspray or drift will injure contacted foliage. If sprayed on desirable plants, rinse off with water immediately. Avoid application to reactive metals such as aluminum, tin, iron, or items such as fencing or lawn furniture in order to prevent staining, mottling, or otherwise interfering with finished metal surfaces.

PRECAUTIONS:**KEEP OUT OF REACH OF CHILDREN**

CORROSIVE to skin and eyes. **DO NOT** get on skin or in the eyes. Protective eyewear, a long sleeved shirt, pants, gloves, shoes, and socks should be worn when handling and/or applying. Wash immediately after use.

FIRST AID

In case of eye contact, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If ingested, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

STORAGE

Keep from freezing. Store in original container out of reach of children .

DISPOSAL

Do not reuse the empty container. Wrap and dispose of container in household garbage.

NOTICE TO USER
