A Family Company (logo)

For control of moss and algae; weeds such as (but not limited to): grass, chickweed, corn spurry, dandelion, groundsel, lamb's-quarters, lichens, liverworts, mouse-eared chickweed, mustards, plantain and round leaved mallow. Use on weeds within vegetable and flower gardens, landscaped areas, lawns (for spot treatment only), in the vicinity of small fruits and fruit trees, around and on buildings, sidewalks, fences, bark mulch, driveways, patios and gravel. Use on moss and algae, around and on buildings, roofs, decks, sidewalks, fences, bark mulch, driveways, patios and gravel.

#### DIRECTIONS FOR USE:

Shake well before using.

#### DIRECTIONS FOR USE WEEDS:

Spray weeds thoroughly, using a coarse nozzle setting to reduce drift. Thorough coverage is extremely important. For spot treatment of individual weeds, apply the solution to the center of plant to the point of runoff. When spot treating individual weeds in lawns, avoid spraying surrounding grass (lawn) as injury will occur. The best results are obtained with young, actively growing weeds, less than 12cm high. This product works best during warm and dry conditions. Application during cold weather may delay appearance of plant damage. If rain falls within 3 hours of treatment, an additional spray may be required. Plant damage will be visible from a few hours to 2 days after spraying. Repeat treatment every 2 to 3 weeks to control new weeds growing from seed and re-growth from biannual and perennial weeds. Avoid spraying desirable plants. Thoroughly clean equipment after use.

#### DIRECTIONS FOR USE: MOSS AND ALGAE

Shake well before using. Spray moss and algae thoroughly as complete coverage is extremely important. Plant damage will be visible from a few hours to 2 days after spraying. One application may control moss for up to one year. Repeat treatment if re-growth occurs. Avoid spraying desirable plants. Do not apply to moss or algae in lawns. Thoroughly clean equipment after use.

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.** May irritate eyes. Avoid contact with eyes. Use only in well ventilated areas. For good hygiene practice, wear gloves when handling this product. Avoid direct application to ponds, streams and lakes. **DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

#### FIRST AID:

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Call a poison control center or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Do not reuse empty container. Dispose of empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
