DIRECTIONS: Remove pets, birds and fish bowls. Open cabinets and doors to areas to be treated. Shut off fans and air conditioners. **Put out all flames and pilot lights.** Do not spray near or over furniture, plastic, painted or varnished surface. Equipment or furniture should be covered. Close doors and windows. Point valve opening away from face and eyes when releasing. Use one can for each 300 cubic meters of unobstructed area.

TO OPERATE VALVE: Product can be used manually or valve can be locked in open position for total release. To lock valve in open position for automatic discharge, depress valve lever down firmly until it clicks and stays depressed. For best results, first spray distant rooms manually spraying towards ceiling. Four to six seconds is ample for average room (3mx3mx3m). Also spray into cracks and crevices. Place can on stand or table in centre of 300 cubic metres of unobstructed area, then lock valve down. Leave area at once and keep closed for 2 hours before airing out. When finished, open all windows and doors and ventilate for 30 minutes. Repeat spraying in two weeks or when necessary. This product will kill exposed insects only and has no residual activity

CAUTION: Do not use in dwelling or in food storage handling, or service establishment as a total release bomb with valve locked open.

FOR OUTDOOR AND GARDEN USE: Spray with valve in manual position. For bugs on such plants as Asters, Azaleas, Begonias, Chrysanthemums, Dahlias, Delphiniums, Gladioli, Irises, marigolds, Petunias, Roses and Snapdragons. Also for bugs on evergreens and small ornamental deciduous trees, shrubs and vines.

For best results, spray in evening, or on cloudy days when air is still. Use slow, sweeping motions. Keep can 45 cm from plants. Avoid wetting foliage with spray. Spray rows at the rate of 30 cm per second. For Heavy growth, spray row on both sides, Repeat when needed. Spray with caution on young plants and new growth. Do not spray garden when temperatures exceed 32 degrees C.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN Do not use in presence of open flame or spark. CONTENTS UNDER PRESSURE. Container may explode if heated. Do not expose to temperature above 50 degrees C. Do not puncture or incinerate. Harmful if swallowed. Avoid breathing of vapor. Avoid contact with skin or eyes. Do not remain in treated areas. Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before use. Do not spray on plastic, painted or varnished surfaces or directly into electronic equipment such as radios, TVs, computers, etc.,

STORAGE: Keep product in cool and dry place, away from open flames and heat sources.

DISPOSAL

When container is empty, press valve to release all remaining pressure then dispose in regular garbage. Do not puncture or incinerate.

Follow provincial instruction for any required additional cleaning of the container prior to its disposal.

Make the container unsuitable for further use.

Dispose of the container in accordance with provincial requirements.

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for information on the clean-up of spills.
