DIRECTIONS FOR USE

This product is for use only with injection tube and for injecting into cracks and crevices where insects may be hiding, living and breeding. Place injector tip 2 cm into cracks, crevices, holes and other small openings where insects may be a problem. Release approx. 1 second spray per spot in serious infestation, if possible, place spots approx. 30 cm apart. In light infestation or preventive treatment place spots approx. 1 meter apart. See the additional directions below for effective control of specified insects.

CRAWLING INSECTS: Centipedes, Cockroaches, Crickets, Earwigs, Millipedes, Sowbugs, Spiders, and Ticks: Spray into hiding places such as cracks and crevices, moist areas, openings around pipes and sinks, behind baseboards, metre boxes and manholes. Spray directly on insects in these locations where possible. **Booklice & Silverfish:** Spray cracks and crevices in baseboards, door frames, bookcases and storage areas. Spray directly on insects in these locations where possible. **Ants:** Spray into trails, nests and points of entry around doors, windows, structural cracks and crevices. Spray directly on insects in these locations where possible. **Chocolate Moths. Drug Store Beetles (in exposed adult and larval stages). Flour Beetles, Grain Weevils and hibernating stages of: Boxelder Bugs, Clover Mites, Cluster Flies and Elmleaf Beetles.** Contact as many insects as possible when treating infested areas such as cracks and crevices, in wall voids, around window and door frames, under siding, in machinery and in dark secluded areas.

Localized treatment of wood-destroying insects: **CARPENTER ANTS, CARPENTER BEES and TERMITES:** Locate source of infestation. Inject 5-10 seconds spray into insect tunnels and cavities. For **CARPENTER BEES**, seal entrance openings with small pieces of stainless steel wool after spray application. The purpose of this treatment is to kill workers or winged reproductive forms which may be present in the treated channels and spaces at the time of treatment.

PRECAUTIONS: KEEP OUT OF THE REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin, clothing and avoid inhalation of vapors or spray mist. Wash thoroughly after handling and before eating, drinking, etc. Do not apply to plants, animals or humans. Remove pets and fishbowls from area before treatment and do not return them for at least 4 hours after treatment. Do not apply to surfaces that children or pets might contact. Meat Packing Plants and Food Processing Plants: In meat packing plants and food processing plants treat only when plant is not in operation. No exposed meat or food products, ingredients or packaging materials are to be kept in the room. Cover food handling equipment. All treated surfaces that may contact meat, food products or other food products should be washed and rinsed thoroughly with potable water after treatment and before re-use for food processing. Hospitals: Do not use in nurseries or rooms where infants, ill or aged persons are confined. CONTENTS UNDER PRESSURE. Do not puncture or incinerate container. Do not use or store near heat or open flame or spark. Exposure to temperature above 50 degrees C may cause bursting. Do not spray on plastic, painted or varnished surfaces or directly into any electronic equipment such as radios, televisions, computers, etc.

STORAGE: Keep product in cool and dry place, away from open flames and heat sources.

DISPOSAL: When container is empty, press valve to release all remaining pressure. Dispose of the container in accordance with provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for information on the clean-up of spills.

FIRST AID : _____ Product contains petroleum distillate. If swallowed, do not induce vomiting and seek medical attention or contact a poison control centre IMMEDIATELY. In case of contact with eyes or skin, flush with water. If irritation persists, seek medical attention or contact a poison control IMMEDIATELY. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Propoxur is a cholinesterase inhibitor. Atropine is antidotal.

NOTICE TO USER This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information.
