DIRECTIONS FOR USE:

FOR CONTROL OF CRAWLING INSECTS

Ants, Roaches, Silverfish, Spiders, Grain Insects:

To kill the exposed stages of these insects use **BUGCON ZEP ULTIMATE** Insect Spray. Spray infested areas, paying particular attention to cracks, crevices, baseboards, moldings and other hiding places. Spray the undersides of tabletops, production equipment and shelving. Treat infested areas around sinks refrigerators, etc. Apply also around pipe openings through walls, floors, ceilings, and open cracks between tiles. Treatment should be continued until infestation ceases after which weekly treatments should be carried out as a preventative measure.

BUGCON ZEP ULTIMATE Insect Spray should be applied with a good quality hand sprayer of the continuous type. It may also be applied with a paint brush.

NOTE: This product is not for use as a broadcast application.

FOR CONTROL OF FLYING INSECTS:

Flies, Mosquitoes, Biting Midges, Wasps, Moths, Small flying insects.

Space Spray: Use 32 mL **BUGCON ZEP ULTIMATE** insect spray per 100 cubic metres. Remove all animals from treatment area before using a space spray. Close all doors and windows and shut off ventilating systems. **BUGCON ZEP ULTIMATE** Insect Spray should be sprayed freely upwards towards the ceiling so as to contact as many insects as possible. Direct spray upwards to all parts of the room especially windows and other light sources. Also direct mist into areas where insects are present. Spray only when temperature is below 32°C. Keep area sealed for 30 minutes after treatment. Do NOT remain in treated areas. Ventilate treated areas for at least 30 minutes before re-entry. If insects have not dropped, repeat treatment using increased pressure in the sprayer so

as to produce finer droplets which will remain suspended for a longer period of time.

Indoor Fogging: Use 32 mL **BUGCON ZEP ULTIMATE** insect spray per 100 cubic metres using misting or fogging machine. Ventilating systems must be shut down. All fires, flames and pilot lights must be extinguished and shut off. All electrical equipment that might function during misting or fogging operations must be turned off. All external doors, windows and other openings, except the one providing the updraught, must be closed. All internal doors and openings must be left open to provide free passage of the mist or fog and to avoid build-up of concentrated mist or fog.

IMPORTANT: When using a Fogger, Mister or ULV generator the equipment must be operated and maintained in accordance with the manufacturer's manual and recommendations.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN.

Avoid inhaling spray mist. Avoid contact with skin, eyes, and clothing. Wash after use. Do NOT remain in treated areas. Ensure proper ventilation after sealed areas have been treated. In meat packing and processing plants, including Federally inspected meat plants, and other food processing plants. Spray only when the plant is not in operation. No exposed meat products, ingredients or packaging materials to be left in the room, and cover food handling equipment. Keep areas tightly closed for 30 minutes. Ventilate for 30 minutes before re-entry. Any treated surfaces that may contact meat food products or other food products should be washed and rinsed thoroughly with potable water after spraying and before re-use for food processing. **DO NOT USE ON OR NEAR FOOD. DO NOT CONTAMINATE ANY BODY OF WATER. PRODUCT TOXIC TO FISH. DO NOT SPRAY OR FOG IN PRESENCE OF OPEN FLAME (INCLUDING PILOT LIGHTS) OR SPARK, OR WHILE SMOKING. TURN OFF ELECTRIC HEATING ELEMENTS.**

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed:** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically. This product contains petroleum distillates.

DISPOSAL AND DECONTAMINATION:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
