[Graphics and subtitles may be added to final printed labeling]

DIRECTIONS: Alleviates the annoyance from mosquitoes by repelling and killing mosquitoes and reducing the number of bites in an area up to 4.5 metres from the product (as large as an average-size deck or patio) for up to four hours. Effect is **not** immediate. For best results, allow 30 minutes for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, porches, patios and yards. Use one device per each 21.0 square metres (an area 4.5 x 4.5 metres or 15' x 15'). Use more devices in larger areas, spacing them to ensure adequate coverage. Wind, heat or humidity may affect the performance of this product. Appliance and mat effectiveness may be diminished if exposed to rain.

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper. Insert the mat under the appliance's grill. One mat lasts up to 4 hours. Mat turns from pale blue to white when active ingredient has been exhausted.
2. Remove the butane cartridge cap. Screw the cartridge into the opening of the appliance; the butane gas will begin to flow. Make sure the cartridge is fully inserted by turning it clockwise until it stops.
3. Slide the start button toward the cartridge until it clicks. Do this three to five times in rapid succession.
4. To verify the appliance is operating, pick it up and check the lens on the end of the appliance. The light at the end of the appliance glows when the appliance is heating. If the light is not glowing, check to make sure the cartridge is completely screwed into place; then once again click the start button three to five times in rapid succession. Check to make sure the light is glowing.
5. Place the appliance on a flat, stable area with the grill side facing up; do not place the appliance so that it is standing on the cartridge. Do not touch the grill; it will be hot after a couple of minutes. Some visible vapour will appear during use. This is normal and no cause for concern.
6. When finished using the appliance, unscrew the cartridge at least one full turn and verify that the light has stopped glowing; allow the appliance to cool completely. Appliance is now ready for storage.

To change mats, unscrew the cartridge at least one full turn and verify that the light has stopped glowing then allow the appliance to cool completely. Push the used mat out by inserting a fresh one.

One ThermaCELL butane cartridge lasts up to 12 hours. If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the cartridge vertically and looking at the fuel level. You can see the amount of butane in the cartridge. Replace if empty.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if inhaled. Avoid breathing vapours. For outdoor use only to kill and repel mosquitoes. Do not use indoors, in tents or any enclosed area. Do not touch the grill while the appliance is in use. The grill is hot while in use. Do not insert anything other than the mat into the appliance [grill]. Place appliance on a flat, stable surface with the grill facing upward. Do not cover with any material while in use. Clean with a damp cloth only when the device is cool and inactive. Store unused mats in the original packaging in a cool, dry place inaccessible to children and pets. Store appliance and butane cartridges in a cool, dry place away from sources of heat. Harmful or fatal if swallowed. May be harmful if absorbed through skin. Avoid contact with skin and clothing. Wash hands with soap and water after use. Cover exposed food.

Cartridge contains flammable butane. Do not use near sparks or open flames. Do not allow mat to come into contact with other substances. Cartridges contain pressurized butane. Protect the butane cartridges from sunlight. Do not expose them to temperatures above 50°C (120°F). Do not pierce, break or incinerate butane cartridges, even after use. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance. Seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats.

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

FIRST AID: If Inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Contains petroleum distillates. Treat symptomatically.

STORAGE: DO NOT contaminate food/feed by storage.

DISPOSAL: Do not reuse empty envelopes. Wrap used mats and butane cartridges and place in household trash. Do not incinerate cartridges. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

With lantern OFF and completely cool, insert mat under grill. 3. Remove butane cartridge cap and screw clockwise into lantern base opening until it stops. Make sure the cartridge is fully inserted. Place lantern on a flat, stable area. 4. Rotate globe to MAX setting, wait 5 to 10 seconds then depress START button 3 to 5 times in rapid succession. 5. Verify lantern is operating; lantern will glow. Adjust light by turning globe. 6. When finished using lantern, rotate globe to OFF position. 7. Allow lantern to completely cool and then store.

ThermaCELL® Butane Cartridge & Mats

If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the appliance vertically and looking at the fuel gauge on the bottom. You can see the amount of butane in the cartridge. Replace if empty.

Each mat lasts up to 4 hours and each ThermaCELL® butane cartridge lasts up to 12 hours. Mats and butane cartridges may be exhausted faster in lanterns at the highest setting. Check mats routinely to ensure that the active ingredient in the mat has not been exhausted. Mat turns from pale blue to white when the active ingredient has been exhausted.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS. Harmful if inhaled. Avoid breathing vapors. For outdoor use only to kill and repel mosquitoes. Do not use indoors, in tents or any enclosed area. Do not touch the grill while the appliance is in use. The grill is hot while in use. Do not insert anything other than the mat into the appliance [grill]. Place appliance on a flat, stable surface with the grill facing upward. Do not cover with any material while in use. Clean with a damp cloth only when the device is cool and inactive. Store unused mats in the original packaging in a cool, dry place inaccessible to children and pets. Store appliance and butane cartridges in a cool, dry place away from sources of heat. Harmful or fatal if swallowed. May be harmful if absorbed through skin. Avoid contact with skin and clothing. Wash hands with soap and water after use. Cover exposed food.

Cartridge contains flammable butane. Do not use near sparks or open flame. Do not allow mat to come into contact with other substances. Cartridges contain pressurized butane. Protect the butane cartridges from sunlight. Do not expose them to temperatures above 50°C (120°F). Do not pierce, break or incinerate butane cartridges, even after use. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance. Seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats.

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

FIRST AID: If Inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice.
