PRECAUTIONS:

Keep out of reach of children. Corrosive to eyes and skin. Harmful if swallowed. Do not mix with any other chemicals. Do not allow contact with skin or eyes. Wear rubber gloves when handling this concentrate.

FIRST AID: If swallowed : Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Rinse container thoroughly before disposal. Do not reuse empty container for any other purpose. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial agency in case of a spill, and for clean-up of spills.

DIRECTIONS FOR USE: DO NOT apply when swimmers are in the immediate vicinity (a 15-minute restricted-entry interval is recommended). 1. Initial dosage for pool water having no visible algae is 135 ml of Algaecide Laurentide 15% per 10,000L of pool water. 2. Weekly maintenance dosage is 70 ml Algaecide Laurentide 15% per 10,000L of pool water. 3. For pool water having visible algae, superchlorinate following label instructions of superchlorination product employed, and wait at least 24 hours before adding weekly maintenance dosage. 4. For visible algae, when superchlorination is not employed, add 335 ml of Algaecide Laurentide 15% per 10,000L of pool water.
