**WHAT YOU WILL SEE:** -Within 48 hours, discolouration and browning of leaves. -Within 7 days, total browning (burndown) of plant. At cool temperatures (below 10°C) and poor moisture conditions, speed of action may be reduced. **FINALE 1SN IN SOIL:** -FINALE 1SN has no soil activity, therefore, there are no planting or replanting restrictions and it will not move to affect other vegetation. **KEYPOINTS:** -No dilution is required prior to use. -Vegetation must be emerged and growing at the time of application to be controlled. -New growth must be treated for control. -Spray only vegetation you want controlled as any desirable plants contacted will be damaged or killed. -Do not apply FINALE 1SN to control woody plants or brush.

**DIRECTIONS: Use:** To control undesirable vegetation in areas such as patios and driveways, or to avoid mechanical trimming of areas such as around trees, buildings and under fences.

**Application Instructions:** Apply to young, actively growing plants. Apply before grass and weeds reach 30 cm in height. Spray to ensure uniform and complete coverage. **Controls:** Virtually any plant that is green and growing (including most annual weeds and top growth of perennial weeds and grasses). **For Best Results:** DO NOT APPLY if rainfall is expected within 4 hours after application. DO NOT WATER within 4 hours after application as the product effectiveness may be reduced. **CAUTION: DO NOT SPRAY IN WINDY CONDITIONS.**

**DIRECTIONS FOR USE OF TRIGGER SPRAYER:** To assist you in the initial priming of your sprayer. **1.** Remove sprayer from re-usable bag. Put on plastic gloves. **2.** Unscrew cap from container and retain in plastic bag. **3.** Place tube through hole in cap, then insert tube into bottle and screw on cap. **4.** Open nozzle about one turn. **5.** Point sprayer at desired area, and pump trigger until spray begins. **6.** Adjust nozzle as desired...fine stream for spot treatment, wide mist for broad application. **7.** When temporarily not in use, keep trigger sprayer above liquid level of container to prevent leakage from nozzle. **8.** To store, remove sprayer and carefully drain tube into bottle by squeezing trigger. Re-cap container with original cap. **9.** Rinse sprayer tube and gloves with clear water before storing in the plastic bag supplied. **REMEMBER...ALWAYS STORE PESTICIDES, CAPS, SPRAYERS AND RELATED EQUIPMENT OUT OF REACH OF CHILDREN AND PETS. PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.** This product may cause eye irritation. Avoid contact with eyes, skin and clothing. The user is encouraged to wear gloves during application. Wash hands after each application. **KEEP CHILDREN AND PETS OFF TREATED AREA UNTIL DRY.**

**FIRST AID: Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention. If swallowed,** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

**In case of skin or clothing,** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**DISPOSAL:** Wrap empty container in newspaper and dispose of container in household garbage. Do not reuse container.

**Satisfaction guaranteed or your money refunded.**
