Pull 'N Spray® Applicator

- **The easier way to apply**
- **No hand fatigue**

[ILLUSTRATION #1]

- Remove sprayer from side carrier and unwrap hose completely.
- Insert plug at end of hose into [spout/knob/opening] on cap until it clicks.
- [Flip up spout./Flip up spout until fully upright./Twist [spout/knob] to "ON"/Pull spout up.]

ILLUSTRATION #2]

- Point sprayer away from body.
- Grasp sprayer by the handle.
- SLOWLY pull ring at bottom of sprayer handle until it stops to ready the sprayer.

[ILLUSTRATION #3]

- Twist nozzle at end of sprayer to adjust spray pattern.

[ILLUSTRATION #4]

- Press button on sprayer to begin spraying and hold down for continuous spray.

-
- Pull ring at sprayer bottom again as needed for additional spraying.

Completely dispense product in sprayer prior to storage. Twist sprayer nozzle to the OFF position. [Close spout on cap./Flip down spout on cap./Flip spout down to the "flat" position to close./Twist [spout/knob] to "OFF"./Push spout down.] NO NEED TO DISCONNECT SPRAYER HOSE FROM CAP. Place sprayer back in side carrier on bottle with the nozzle facing down.

DIRECTIONS FOR USE:

SHAKE WELL BEFORE USING. Do not dilute. Follow illustrations and instructions to ready the sprayer. Twist nozzle at end of sprayer to open and adjust spray pattern. Point sprayer away from body and press sprayer button to begin spraying. Pull ring at base of sprayer as needed to continue spraying. Hold down for continuous spray. Spray weeds until foliage is thoroughly wetted, just to the point of run-off. Repeat treatment every three to four weeks if necessary, up to a maximum of 4 applications per area per year. Visible signs of control may be seen within several hours after application. Susceptible weeds, moss or algae will turn brown or black. Occasionally a darkening of the grass leaf blades can occur after treatment; however the grass will recover within a few days to weeks. May stain thatch (dead grass under lawn); this does not affect the health of the grass.

Use Precautions: Do not apply to drought stressed grass; ensure lawn is well watered prior to application. Do not apply when the daytime temperature will exceed 30°C. Do not apply to bentgrass. If unsure of grass sensitivity, test spray a small area of your lawn. Do not apply to newly seeded areas until four or more weeks after grass seedlings have emerged. Avoid spraying desirable plants. Any desirable plants or structures accidentally contacted should be rinsed immediately with water. To avoid staining, wait until treated area dries before re-entry. Do not apply if rainfall is expected within 3 hours of application. Do not irrigate within 3 hours of application. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

PRECAUTIONS:

CAUTION: KEEP OUT OF REACH OF CHILDREN. Causes slight eye irritation. Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, and chewing gum or chewing tobacco. DO NOT get in eyes. Avoid hand-to-mouth contact. Avoid breathing spray mist. Do not re-enter or allow re-entry into treated areas until the spray is dried. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID:

If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control centre or doctor for treatment advice. **If inhaled**, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If in eyes**, hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

STORAGE:

Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material, tightly closed, in original container only, away from open flame. Protect from freezing. To prevent contamination store this product away from food or feed.

DISPOSAL:

Do not reuse empty container. Dispose of empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
