FOR INDUSTRIAL USE ONLY as a fungicide in solvent based paints and coatings.
Products containing this chemical are not to be used in food packaging materials or in

areas where food is processed, handled or stored, except paints intended for use on walls and ceilings of food processing plants.

DIRECTIONS FOR USE:

For use as a fungicide. May be added at any phase of manufacture. To prevent mildew growth on non-aqueous based paint films, add 1.0 - 2.0% by weight .

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN

- Harmful if swallowed.
- May be fatal if inhaled.
- Avoid inhalation of dust, vapour or spray mist.
- May be harmful if absorbed through the skin.
- Avoid contact with skin.
- Potential skin sensitizer.
- May irritate eyes.
- Avoid contact with eyes.
- Wash thoroughly after handling.
- Avoid contamination of food.
- Personal Protective Equipment (PPE): Wear long sleeved shirt, long pants and chemical resistant gloves during mixing, loading, application, clean up and repair. In addition, mixer/loaders must wear a NIOSH/MSHA/BHSE approved dust/mist filtering respirator.

FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically. This product contains petroleum distillate. Vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS: This product contains aromatic petroleum distillates which are toxic to aquatic organisms. DO NOT dispose of any portions of this product into water bodies such as lakes, streams, ponds, rivers, estuaries, oceans, or other water bodies.

DISPOSAL:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
