Weight per tablet: (19.72 g for small tablets) (227 g for large tablets)

WHY TO USE THIS PRODUCT: For use in feeders, floaters or skimmers, this multifunctional sanitizer kills bacteria and controls algae. Aqua Chem Multi-Tabs contain a metal stain inhibitor, scale preventer and water softening agent. This sanitizer will last longer compared to chlorine products such as liquid bleach or calcium hypochlorite, as it contains sunlight-protected chlorine. It's the perfect solution for clear, inviting pool water.

Warning: Direct tablet contact may cause bleaching of vinyl or painted pool surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other pool sanitizers to avoid the probability of an explosion.

DIRECTIONS FOR USE:

1. Do not enter the pool if free available chlorine is above 3 ppm as determined by testing kit.
Free available chlorine: 1.0 - 3.0 ppm
pH: 7.2 - 7.8
Total Alkalinity: 100 - 120 ppm
Calcium Hardness: 200 - 300 ppm
2. For outdoor pools, chlorine residuals can be protected from destruction by the sun's rays by adding 300 g of stabilizer (cyanuric acid) per 10,000 L of pool water to yield the required initial concentration of 30 ppm.
3. Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorinating product being employed.
4. This product contains stabilizer which can accumulate in pool water. Keep stabilizer within the range of 30 - 100 ppm by dilution with fresh water.
5. If using an automatic chlorinator, fill the chamber(s) with tablets and adjust flow rate, according to manufacturer's recommendations, to maintain proper chlorine residual. Adding tablets to the pool's skimmer basket is an alternative chlorine feed method. Daily usage should approximate 30 g of Aqua Chem Multi-Tabs per 10,000 L of pool water.

Note: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Severely irritating to the eye and skin. Dangerous gas formed when mixed with acid. Avoid inhaling/breathing dust. Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. DO NOT get on skin or eyes. It is recommended to wear rubber gloves when handling this product. Fatal or poisonous if swallowed. Keep container closed and store in a cool, dry location.

FIRST AID: If swallowed: Call a poison control centre or doctor IMMEDIATELY for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically. Probable mucosal damage may contraindicate the use of gastric lavage.

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
