Pull'N Spray™
The easier way to spray
No hand fatigue

[*ILLUSTRATION #1*]

Remove sprayer from side carrier and unwrap hose completely.
Insert red plug at end of hose into red spout on cap until it clicks.
Flip up spout.

[*ILLUSTRATION #2*]

Point sprayer away from body.
Grasp sprayer by the handle.
SLOWLY pull ring at bottom of sprayer handle until it stops to
ready the sprayer.

[*ILLUSTRATION #3*]

Twist nozzle at end of sprayer to adjust spray pattern.

[*ILLUSTRATION #4*]

Press button on sprayer to begin spraying and hold down for
continuous spray.
Pull ring at sprayer bottom again as needed for additional
spraying.

RAIN-PROOF™ IN TWO HOURS [Logo]

For Control That Won't Wash Away.

PRODUCT FACTS	
Container treats 200 sq. metres (10 paces x 20 paces) and more than 1,400 weeds.	
Controls Weeds & Grass	<i>[Pictures of various types of grass & weeds]</i> MOST TYPES OF WEEDS & GRASSES
Where to Use	On patios, walkways and driveways In flower beds & vegetable gardens Around trees, shrubs & ornamentals For edging along fences, driveways, foundations In large areas For lawn replacement For garden plot preparation & brush control
Questions, Comments Call 1-866-476-7645 www.roundupcanada.ca	

DIRECTIONS:

Glyphosate is not to be applied using hand-wicking or hand-daubing methods.

HOW TO APPLY:

Follow illustrations and instructions to ready the sprayer. Turn nozzle to adjust spray pattern. Point sprayer at unwanted weeds or grasses and press sprayer button to begin spraying. Hold down for continuous spray. Pull ring at sprayer bottom again as needed for additional spraying. Spray the weeds or grasses you want to eliminate until thoroughly covered.

For best results ensure that Roundup® gets down to the roots – avoid tillage or disturbing the treated area for 7-10 days. This will ensure that the entire plant, including the root, is eliminated.

Avoid spray contact on desirable plants as any plant contacted may be killed. When spot treating around desirable plants, shield plants from drift with a piece of cardboard or plastic. If a desirable plant is accidentally sprayed, rinse off immediately with water.

Important: Do not spray plants or grasses you like – they may die too. Not recommended for spot weed control in lawns since Roundup kills lawn grasses.

For lawn and garden renovation, skip one mowing prior to treatment. Allow at least 3 days after treatment before disturbing the soil and/or replanting.

Brush control: Apply after leaves are fully expanded. Treat trees and brush up to 1.5 m in height only; for taller plants cut down and spray regrowth.

Do not apply to the point of run off.

WHEN TO APPLY:

Apply when weeds and grass are actively growing. Apply to annual weeds anytime after emergence. For perennial weeds apply after seed heads, flowers or berries appear.

For best results, apply during warm, sunny weather (above 15°C) to accelerate systemic movement from foliage to roots.

Apply when air is calm to prevent drift to desirable plants.

Do not apply if rainfall is forecast for the time of application. Rain-Proof™ – Rain or watering two hours after application will not wash away effectiveness. However, heavy rainfall immediately after application may wash the chemical off the foliage and repeat treatment may be required.

All ornamental flowers, trees & shrubs may be planted **1 day after** application.

WHAT TO LOOK FOR:

Visible symptoms of control, such as browning or yellowing of leaves, will occur within 1 to 2 days with complete control in 7 to 10 days.

HOW IT WORKS:

Roundup® is a non-selective vegetation control herbicide which controls most annual and perennial grasses, including lawn grasses, broadleaf weeds and brush (i.e. virtually anything that is green and growing). Roundup® enters plants through foliage and moves systemically to the roots, eliminating weeds by stopping the production of a substance found only in plants.

NOTE: ROUNDUP® has no soil activity and will not leach or run off to affect nearby vegetation. Controls only growing or emerged grasses and weeds. Repeat applications will be required as new seedlings and vegetation emerge.

[BACK PANEL (INSIDE PEEL BACK)]

PRECAUTIONS:

CAUTION: EYE IRRITANT. HARMFUL IF SWALLOWED. Avoid contact with eyes or prolonged contact with skin. Do not allow others such as children and pets on treatment area during application or to re-enter treated areas until spray has dried. Wash immediately after using this product. Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

FIRST AID	
If on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.
If ingested	Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.
If in eyes	Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.
Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.	
TOXICOLOGICAL INFORMATION: Treat symptomatically.	
Medical Information: 1-866-476-7645	

STORAGE:

Completely dispense product in sprayer prior to storage. Twist sprayer nozzle to the OFF position. Flip down red spout on cap. NO NEED TO DISCONNECT SPRAYER HOSE FROM CAP. Place sprayer back in side carrier on bottle with the nozzle facing down. Store this product in its original container, in a safe place out of the reach of children and pets. Keep from freezing.

DISPOSAL:

Do not re-use empty container. Wrap and dispose of empty container with household garbage.
