# AZUR SPA

## BROMO TAB

**Controls bacteria and algae in spa water.**

### **GARANTEE:**

Available bromine, present as 1-BROMO-3-CHLORO-5,5-DIMETHYLHYDANTOIN AND RELATED HYDANTOINS: 64%  
Available chlorine, present as 1-BROMO-3-CHLORO-5,5-DIMETHYLHYDANTOIN AND RELATED HYDANTOINS: 28%

Irritant. Dangerous gas formed when mixed with acid.

### **DANGER**

**CORROSIVE TO EYES AND SKIN POTENTIAL SKIN SENSITIZER**

### **DOMESTIC**

**REG. NO: 27693 P.C.P. ACT**

**KEEP OUT OF REACH OF CHILDREN**

**READ THE LABEL BEFORE USING**

**PICTOGRAMS + DANGER MENTION: WARNING/POISON /CORROSIVE**

**NET CONTENTS: 4 kg**

**ADDRESS: RBF INTERNATIONAL LTÉE 780 NOBEL, ST-JÉRÔME (QC) CANADA J7Z 7A3 1-800-433-0590\***

**BROMINATING TABLETS for spas and hot tubs:** *AZUR SPA BROMO TAB* Brominating Tablets, when used as directed, are effective as a spa water sanitizer.

**WARNING:** Direct tablet contact may cause bleaching of vinyl or synthetic spa surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other spa sanitizers to avoid the probability of an explosion.

### **DIRECTIONS FOR USE: Weight per Tablet : 20 g**

**1.** Maintain recommended daily levels as determined by testing kit:

Free available bromine: 3.0 – 5.0 ppm	pH: 7.2 – 7.8
Total Alkalinity: 100 – 150 ppm	Calcium Hardness 100 – 200 ppm

**2.** If using an automatic feeding device, fill the chamber (s) with tablets and adjust the flow rate, according to manufacturer's recommendations, to maintain proper bromine residual. Adding tablets to the spa's skimmer basket is an alternative bromine feed method. Daily usage should approximate 5 g of *AZUR SPA BROMO TAB* Brominating Tablets per 1,000 L of spa water.

**NOTE:** Heavy spa usage, and higher temperatures may require higher usage rates to maintain proper bromine residuals.

**3.** Periodic superchlorination of spa water is recommended. Follow label instructions of superchlorination product being employed.

**NOTE:** Persistent foam formations, turbid or malodours water are indicators of inadequate sanitizer levels. To correct such conditions, superchlorinate spa water by adding superchlorination product. Maintain circulation at least 30 minutes and wait 4 hours before using.

For proper sanitation, spa must be completely drained periodically. The number of days between COMPLETE SPA DRAINAGE is equal to the volume of spa water in litres, divided by 10 times the maximum of daily spa users. Refill spa with water and repeat DIRECTIONS FOR USE. Maximum spa water usage temperature is 40°C. Duration in spa water at 40°C should not exceed 15 minutes.

**PRECAUTIONS :** KEEP OUT OF REACH OF CHILDREN. IRRITANT. CORROSIVE.

Dangerous gas formed when mixed with acid.

Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. Dust may be harmful or fatal if inhaled. Avoid breathing dust. May be harmful or fatal if swallowed. Do not swallow.

Corrosive to eyes and skin. Potential skin sensitizer.

Causes eye damage and skin burns. Skin exposure to dust may cause allergic skin reaction in some individuals. Do not get in eyes, skin or clothing. It is recommended to wear rubber gloves and goggles when handling the product. Keep container closed and store in a cool, dry location.

**TOXICOLOGICAL INFORMATION :** Treat symptomatically.

### **DISPOSAL :**

Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations.

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

**FIRST AID:**

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and PCP Registration Number with you when seeking medical attention.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.
