#### DIRECTIONS:

**SHAKE WELL BEFORE USING.** Within the specified use location, to enhance effectiveness of this product, apply directly to the listed pests where possible. For all labelled uses, treatment must only be repeated after 7 days if pest problem persists or reoccurs. When applied indoors, Good sanitary practices should be maintained to prevent re-infestation.

#### USE LIMITATIONS FOR ALL USES

**DO NOT** apply when people or pets are present.

**DO NOT** allow people or pets to enter treated areas until sprays have settled after an indoor space treatment.

When applied indoors: Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash them following treatment. Any food/feed accidentally contaminated with spray solution must be discarded. ventilate treated areas after application by opening windows and doors or using fans where required to aid in the circulation of air.

When applied outdoors: **DO NOT** apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs).

**DO NOT** apply to any body of water.

**DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Avoid application of this product when winds are gusty.

#### FOR INDOOR USE IN BUILDINGS:

##### HOW TO APPLY

**APPLY AS A SPACE SPRAY ONLY.** Space application is a suspension of fine droplets in the air within an indoor space.

To kill flies, mosquitoes, wasps, hornets and spiders: Close all windows and doors and shut off all ventilating systems and sources of ignition before treatment. While holding the can at arm's length, spray upward in sweeping motion to all parts of the room, especially ceiling, upper corners of the room, windows and other light sources. Keep spray at least 1 m from the interior walls, fabrics and furniture. Begin application at far side of the room and work backwards toward exit. **DO NOT** exceed 0.29 g/m<sup>3</sup> of room space (1 second per 8 m<sup>3</sup>) per average sized room (30 m<sup>3</sup>). Vacate the treated area and keep windows and doors closed for 30 minutes, then ventilate treated areas for 30 minutes before re-entry. Following ventilation, clean up dead insects.

#### FOR OUTDOOR USE AROUND BUILDINGS:

To kill flies, mosquitoes, wasps, hornets and spiders: Spray only if air is still and temperature is under 32°C. Hold can at arm's length, with nozzle pointed away from you. Stand at least 2 m from the area where listed insects are a nuisance, directing mist upwards in sweeping motions to all areas where insects are congregating including under eaves, around shrubbery, around porches and other areas. **DO NOT** exceed 3.13 g/m<sup>2</sup> (1 second per m<sup>2</sup>).

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. DO NOT** remain in treated areas after application. Avoid inhalation of spray. Avoid contact with skin and eyes. Wash hands after using. Contents under pressure. **DO NOT** place in hot water or near radiators, stoves or other sources of heat. **DO NOT** puncture or incinerate can or store at temperatures over 50°C. **DO NOT** spray into or near any open flame or spark.

**FIRST AID:** If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Contains petroleum distillates. If accidentally swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Skin exposure may cause transient sensations (tingling, burning, itching, numbness). Other symptoms of exposure could include respiratory effects (such as cough, respiratory irritation, or shortness of breath), nausea, headache or dizziness. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

#### **ENVIRONMENTAL PRECAUTIONS**

Toxic to aquatic organisms. Toxic to bees. Avoid application around blooming plants. If applications must be made during the blooming period, restrict applications to evening when most bees are not foraging. For the treatment of stinging insect nests, this product is intended for use on yellow jackets, hornets and wasps only. Toxic to beneficial arthropods (which may include predatory and parasitic insects, spiders, and mites). Minimize exposure to non-target areas.

#### **DISPOSAL:**

**DO NOT** reuse empty containers. When container is empty, press valve to release all remaining pressure. Wrap and discard empty container in household garbage. **DO NOT** puncture or incinerate. Unused or partially used products should be disposed of at provincially or municipally designated hazardous waste disposal sites.

#### **STORAGE**

Store this product in a cool, dry area away from heat, food or feed.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
