Green Earth® Slug and Bug Insect Killer Dust is designed to take advantage of mineral deposits of diatoms which have been found useful in reducing crawling insect pest populations in and-around the home or apartment. This product is a physical control to which insects cannot built up a resistance. The patented manufacturing process of this product contains two food-grade additives of which one attracts the crawling insects while the other is a digestive ingredient. When applied directly, crawling insects are usually killed within 48 hours from cutting action. This odourless fine powder will not stain and can be used safely when used according to the label directions.

DIRECTIONS: Green Earth® Slug and Bug Insect Killer Dust will remain effective in controlling many crawling household and garden pests such as: ants, bedbugs, caterpillars, cockroaches, crickets, earwigs, fleas, potato beetles, bedbugs, silverfish, slugs and sowbugs. Direct application to insect is preferred. Apply by lightly coating or dusting area where insect pests are found or hide such as cracks or crevices, under cabinets, etc. Bedbugs: Disassemble beds and dust frames, joints, mattresses, tufts and seams, floors and baseboards. Product remains effective as long as it is present. Use as powder indoors or out. For best results, use in areas where dust application cannot be affected by heavy rains or high winds. For longer control outdoors, use as wettable powder with water around foundations, shrubs, flower beds, gardens, etc.

DOSAGE: Dry – Lightly coat desired area. Suggested rate of 50 g per 10 m² (1 oz. per 65 sq. ft.)
Wet – Apply to point of wetness 75 g in 1 L water per 10 m². (2 ½ oz. in 1 qt. water per 65 sq. ft.)

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid breathing dust. Do not use as a space spray. Avoid contact with eyes.

FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and P.C.P. Registration number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Do not reuse empty container. Discard empty container in household garbage.

For additional product information or in case of emergency, spills or fire, call toll-free 1-800-268-2806.
