NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.

DIRECTIONS FOR USE

- SHAKE WELL BEFORE USING.
- Hold can upright at least 120 cm from all objects and aim nozzle away from person. Press button firmly to spray.
- Within the specified use location, to enhance effectiveness of this product, apply directly to the listed pests where possible
- **Treatment** must only be repeated after 7 days if pest problem persists or reoccurs.
- **Good** sanitary practices should be maintained to prevent re-infestation.

First Aid:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If on skin or clothing:** Take off contaminated clothing, Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

TOXICOLOGICAL INFORMATION

Treat symptomatically. Skin exposure may cause transient sensations (tingling, burning, itching, numbness). Other symptoms of exposure could include respiratory effects (such as cough, respiratory irritation, or shortness of breath), nausea, headache or dizziness.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. DO NOT place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C. Cover fish bowls when spraying rooms. Avoid contact with skin, eyes, clothing. Avoid inhalation of spray. Wash after using. Keep from freezing.

FOR INDOOR USE AT BUILDINGS

Use Limitations

DO NOT apply when people or pets are present.

- **DO NOT** allow people or pets to enter treated areas until sprays have dried.
- **DO NOT** apply to surfaces that may come into contact with food/feed. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash them following treatment. Any food/feed accidentally contaminated with spray solution must be discarded.
- **DO NOT** apply to overhead areas or in confined spaces (e.g., attics, crawlspaces, small storage rooms, closets).
- **DO NOT** allow spray to drip or allow drift onto non-target surfaces.
- Ventilate treated areas after application by opening windows and doors or using fans, where required, to aid in the circulation of air.

How to Apply

DO NOT APPLY AS A SPACE SPRAY OR BROADCAST TREATMENT. Apply as a crack and crevice, perimeter, spot or furniture (**pet bedding, mattresses, box springs and bed frames only**). Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings. Perimeter application is less than 0.3 m wide along the edges of a room to baseboards, wall-floor and ceiling-wall joints, and around doorways or windows. Spot application is localized to a surface area not more than 0.2 m². Spots are not to be adjoining and the combined area of spots is not to exceed 10% of the total surface area of a room. Furniture treatment: *broadcast application* covers large areas of the entire surface of items; *crack and crevice treatments* are applications to junction points on items; *spot application* is up to 10% of the surface of the item; and *tuft and/or seam treatment* (mattresses only) is to the junction of two or more pieces of fabric and any decorative trim (e.g., buttons).

To kill bed bugs: **DO NOT** use on items which can be laundered (e.g., pillows, bedding, toys, clothing, etc.). Remove bedding before treating mattress. Spray mattress, particularly around tufts and seams. Take bed apart and spray the bed frame, springs and all joints. Treated mattress must be dry before replacing laundered bedding. **Following ventilation, clean up dead insects.** **DO NOT** exceed 16 seconds per m².

To control Fleas, Brown dog ticks: **DO NOT** apply to furniture (with the exception of pet bedding), mattresses, linens, toys or clothing. Apply to indoor building surfaces, including cracks and crevices in walls and floors; along and behind baseboards, window and door frames; and localized areas of floors and floor coverings. Pet bedding may be entirely treated with this product or replaced with clean, fresh bedding after other listed areas are treated. **DO NOT spray furniture or carpets that people regularly contact.** **DO NOT** exceed 16 seconds per m². **DO NOT** SPRAY PETS WITH THIS PRODUCT. Only treat pets with products specifically registered for use on that type of pet. For effective flea and tick control indoors, clean any area used by the pet. Cleaning the areas includes vacuuming floors, carpets, furniture, etc. (discard vacuum bag after use) and washing the pet's bedding, living quarters, and surrounding area.

STORAGE: Store this product away from food or feed

DISPOSAL: **DO NOT** reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
