ANTIMICROBIAL
KOZY KITTY®
CLUMPING CAT LITTER

KOZY KITTY® CLUMPING CAT LITTER is created from a blend of clays ~ Sodium Bentonite and Zeolite. Our Zeolite “Odor Stopper” makes our natural occurring blend of clays superior to other scooping litters. KOZY KITTY® CLUMPING CAT LITTER clumps on contact with liquid or solid waste stopping ammonia odors.

KOZY KITTY® CLUMPING CAT LITTER LITTER’S formula controls the growth of odour-causing bacteria and resists microbial odor development in the litter.

DIRECTIONS FOR USE:

1. Fill a clean, dry litter box with approximately 6 - 8 cm (2 - 3 inches) of KOZY KITTY® CLUMPING CAT LITTER.
2. Remove waste clumps daily with a slotted scoop.
3. Add fresh KOZY KITTY® CLUMPING CAT LITTER to box as required to keep litter box comfortably full.
4. Completely empty and wash litter box once a month.

DISPOSAL:

Dispose of clumps or used and unused cat litter and packaging in accordance with local regulations.

PRECAUTIONS:

Pregnant or nursing women and people with a suppressed immune system should note that a parasite found in cat feces can cause toxoplasmosis. They should exercise caution and consult a physician before handling a litter box. Always wash hands thoroughly after preparing or cleaning the litter box. For further information, consult your local public health office.

WARNING:

Do not flush cat litter in toilets or dispose of it outdoors in gutters or storm drains, or any other waste water system. Do not use this product as a traction aid. It becomes slippery when wet. Keep the litter away from food preparation.

TOXICOLOGICAL INFORMATION:

Treat Symptomatically
