

LIBERTY 4

POOL START UP SHOCK TREATMENT
STABILIZED CHLORINATING GRANULES
CONTROLS BACTERIA AND ALGAE in
Swimming Pool Waters

DOMESTIC
REG. NO. 27649 P.C.P. ACT

ACTIVE INGREDIENT:
AVAILABLE CHLORINE (present as sodium dichloro-s-triazinetriene).....27%

CAUTION
POISON CORROSIVE
Net Contents
{Format}

READ THE LABEL BEFORE USING
KEEP OUT OF REACH OF CHILDREN

Calypso, 42, rue de l'Artisan
Victoriaville, (Québec) G6P 7E3
Emergency Phone: 1-866-470-7264

DIRECTIONS FOR USE:

1. Maintain proper daily levels as determined by testing kit.
Free available chlorine: 1.0 – 3.0 ppm
pH: 7.2 – 7.8
Total alkalinity: 80 – 120 ppm
Calcium hardness: 200 – 300 ppm
2. For outdoor pools, chlorine residuals can be protected from destruction by the sun's rays by adding 300 g of stabilizer (cyanuric acid) per 10,000 L of pool water to yield the required initial concentration of 30 ppm.
3. Maintain proper chlorine residual by broadcasting daily over the pool's surface, 91 g of LIBERTY 4 per 10,000 L of pool water, or as needed.
NOTE: Hot weather, heavy pool usage and rain may require higher usage rates to maintain proper chlorine residuals.
4. Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product employed.
5. LIBERTY 4 contains cyanuric acid stabilizer which can accumulate in pool water. Keep stabilizer within the recommended range of 30-100 ppm by dilution with fresh water.
6. While LIBERTY 4 can be used for superchlorination by using 410 g per 10,000 L of pool water, care must be taken to avoid excessive accumulation of stabilizer.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Strong oxidizing agent. May cause fire or explosion if contaminated. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. It is recommended to wear rubber gloves when handling this product. Avoid contact with skin and eyes. Harmful if swallowed. Keep container closed and store in a cool, dry location.

DISPOSAL:

Do not reuse empty container. Wrap and dispose of empty container with household garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill, and for clean-up of spills.

FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.
