LIMITATION OF USE

For application by supplier only, at provincially approved sites.

DIRECTIONS FOR USE:

ChemTreat CL-2006 should be fed as received if product is fed directly from drum or pail. If product is slug-fed by hand, prepare a 2:1 mixture of water to biocide. Prepare mixture by slowly adding biocide to the mix water. This preparation procedure minimizes product foaming during dilution process and when feeding the diluted biocide to water. Apply at a point in the system where the product will be uniformly mixed.

Feed Requirements: Apply ChemTreat CL-2006 to achieve 1-10 ppm active in the system for mollusk control. Deactivation must be conducted prior to discharge from the system by using bentonite clay at a minimum ratio of 5 ppm clay to 1 ppm of product.

Do not apply ChemTreat CL-2006 more than four (4) times per year. The duration of treatment must not exceed 120 hours, per application. NOTE: This product should not be used or compounded with any reducing or oxidizing agents (such as calcium hypochlorite, solid perchlorate or nitric acid) since such mixtures may be explosive. Do not use in conjunction with soap or any anionic wetting agent. Wear goggles or face shield, rubber gloves and respirator if mist is generated. Under certain conditions, the use of protective creams may be advisable. Wash thoroughly after handling.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. DANGER – Corrosive to eyes. Do not get in eyes, on skin or clothing. Harmful if swallowed. Avoid contamination of food. When handling this concentrate wear goggles or a face shield, chemical-resistant gloves, long pants, a long-sleeved shirt, and shoes plus socks.

FIRST-AID: In case of eye contact, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label, or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

ENVIRONMENTAL PRECAUTIONS: This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. The requirements of applicable laws should be determined before using the product.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

DISPOSAL:

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.

5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for cleanup of spills.
