NET CONTENTS: 227g – 34.1 Kg

WHY YOU SHOULD USE THIS PRODUCT

This product, when used regularly, is an effective sanitizer and will protect your pool water from bacteria and algae. This product can be used for routine chlorination, shock treatment, or algae control treatment. For best results, use with other HTH® pool care products. For crystal clear pool water, follow our 4 step pool care program.

Step 1: Test and balance water.

Step 2: Sanitize.

Step 3: Shock regularly.

Step 4: Add algaecide as directed.

DIRECTIONS FOR USE:

Water Balance: Maintain recommended daily levels as determined by a test kit or test strips:

Free available chlorine: 1.0 - 3.0 ppm

pH: 7.2 - 7.8

Total alkalinity: 80 - 120 ppm

Calcium hardness: 200 - 300 ppm

METHOD OF APPLICATION:

Best used during evening hours. Add the required dosage of this product with a clean, dry cup or spoon that is used solely for this product. Broadcast the product evenly over a wide area in the deepest part of the pool. Direct contact may cause bleaching of vinyl or painted pool surfaces. Use brush to disperse any granules that settle to the bottom of the pool. Let filter pump run 6 to 8 hours minimum after applying.

DOSAGE

OPENING YOUR POOL:

Follow "SHOCK TREATMENT" directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual. Repeat dosage, as needed, until the free available chlorine residual is 1–3 ppm.

ROUTINE CHLORINATION:

For pools stabilized with cyanuric acid: Add 45 g of this product per 10,000 L of pool water every other day or as needed to maintain proper chlorine residual between 1 – 3 ppm.

For Unstabilized Pools: Add 90g of this product per 10,000 Litres of pool water daily or as needed to maintain proper chlorine residual between 1-3 ppm.

NOTE:

-Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

-For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by addition of stabilizer (cyanuric acid).

SHOCK TREATMENT: For best results, shock at dusk. Every 7 days, or as necessary to prevent pool problems, shock treat / super chlorinate the pool by adding 220 g of this product per 10,000 liters of water to provide 5 to 10 ppm available chlorine. In addition to weekly shock treatment, you should shock treat to remedy problems which occur when bather loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling walls. Do not enter pool until free available chlorine residual is 1-3 ppm.

ALGAE CONTROL: For visible algae, treat with 500-700 g of this product per 10,000 litres of pool water. Add this product close to any algae on the sides or bottom of the pool. Immediately, brush surface, then vacuum and cycle through the filter. Repeat as needed. Pool should not be entered until the chlorine residual is 1-3 ppm.

WINTERIZING: While the water is still clear and clean, prepare for long periods of disuse by gradually applying 620 g of this product per 10, 000 L of pool water. Run the filter until dispersion is complete. Cover the pool with a plastic pool cover and prepare heater, pump and filter components for winter by following manufacturer's directions.

PRECAUTION STATEMENTS: KEEP OUT OF REACH OF CHILDREN. DANGER: Corrosive. Causes skin and eye damage. May be fatal if swallowed. CORROSIVE to the eye. DO NOT get in eyes. Corrosive to the skin. DO NOT get on skin. Harmful if inhaled. Avoid breathing dust and fumes. Do not apply in windy conditions. Wear eye protection, protective clothing, and rubber gloves when handling this product. Use only thoroughly clean, dry utensils when handling. Remove and wash contaminated clothing before reuse. Strong oxidizing agent. Dangerous gas formed when mixed with acid. Do not use this product in any feeder, floater, skimmer or other dispensing device that has been used with any other product. Do not mix with any other chemical. Do not allow product to contact any foreign matter, including other pool/spa treatment products. Do not allow to become wet or damp before use. Do not add water to this product. Add only into water. Do not mix this product in a small amount of water. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

FIRST AID

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Treat symptomatically.

ENVIRONMENTAL HAZARD: This pesticide is toxic to aquatic organisms. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes. This registration is granted under the *Pest Control Products Act* and does not exempt the user from any other legislative requirements.

STORAGE: Store this product away from food or feed. Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. If possible, isolate container in an open and well-ventilated area. Flood with volumes of water.

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse empty container. Dispose the empty container with household garbage. For disposal of a contaminated or decomposing product, see Emergency Handling. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
