Notification Change

GENERAL INFORMATION:

DEER GUARD® is a ready to use deer repellent that discourages deer (*Odocoileus* spp.) from feeding on trees, shrubs, ornamentals, conifers, and non-bearing deciduous trees. DEER GUARD® is ready to use and required no mixing. Use this product only at ambient temperatures between 5°C and 32°C (40°F and 90°F). Do not use on food or feed crops. Although DEER GUARD® has been tested on many species of plants and trees and is not believed to be phytotoxic, it is advisable to treat small portions of plants that may be especially sensitive before treating entire plant. Children and pets may enter treated area after spray has dried. Do not apply or drift onto stone, concrete or siding as staining may occur. **Keep from freezing**

DIRECTIONS FOR USE: Shake well before using. Transfer to any pump sprayer equipped with a cone or flat fan nozzle. Adjust nozzle to obtain even coverage. Apply only to dry plants. Hold spray tip 30 to 60 cm (1 to 2 ft) from plants and spray leaves, needles, buds and branches subject to browsing by deer. Thoroughly wet surfaces but do not apply to the point of significant run-off. For best results, apply to bare branches in fall and to unprotected foliage in spring. Repeat treatment as deer damage resumes. Avoid drift.

USE LIMITATIONS: DO NOT APPLY BY AIR. Do not apply through any type of irrigation system or hose proportioner applicator. Do not apply or drift on stone, concrete, or siding or staining may occur.

PRECAUTIONS**KEEP OUT OF REACH OF CHILDREN**

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or spray mist. May cause skin reactions. Discontinue use if any skin reactions occur. Wear chemical-resistant gloves when handling DEER GUARD® or contaminated equipment. Wash thoroughly with plenty of soap and water after handling and before eating or smoking. Do not reenter treated area until the spray has dried.

FIRST AID:

IF ON SKIN OR CLOTHING, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

STORAGE: Use and store this product in its original container. Do not put product into food or drink containers. Store product in a secure storage area. Do not contaminate water, food or feed by storage and disposal. **KEEP FROM FREEZING.**

DISPOSAL:

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment sites.
2. Follow provincial instructions for any required cleaning of the container prior to its disposal.
3. Make empty container unsuitable for use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for cleanup of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label.
