Label

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

FIRST AID

IN CASE OF POISONING, contact a physician or poison control center **IMMEDIATELY**. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing, take off contaminated clothing. Rinse skin **IMMEDIATELY** with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If swallowed, call a poison control centre or doctor **IMMEDIATELY** for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

TOXICOLOGICAL INFORMATION

Treat symptomatically if ingested or in contact with eyes or skin.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN.

Avoid contact with eyes or prolonged contact with skin. Do not allow others such as children and pets on treatment areas during application or to re-enter treated areas until spray has dried. Wash immediately after using this product. Do not contaminate water, foodstuffs, seed or feed by storage or disposal. Dispose of emptied container with household garbage. Do not reuse container. Avoid spray contact on desirable plants as any plant contacted may be killed. Do not spray in windy conditions. Do not spray to the point of run-off.

Wear chemical-resistant gloves, socks and shoes when applying the product and during clean-up activities.

Rain or watering two hours after application will not wash away effectiveness. However, heavy rainfall immediately after application may wash the chemical off the foliage and repeat treatment may be required. Do not apply if rainfall is forecast for the time of application.

STORAGE

1. Do not use or store near heat or open flame.
2. Keep from freezing.
3. Store in original container in a secured, dry storage area.
4. Store the tightly closed container away from seeds, fertilizers, plants and foodstuffs.
5. Prevent cross contamination with other pesticides.

DISPOSAL

DO NOT reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

***IN CASE OF EMERGENCY INVOLVING A MAJOR SPILL, FIRE OR POISONING,
CALL 1-800-327-8633 (FASTMED)***

TOUCHDOWN READY-TO-USE HERBICIDE

TOUCHDOWN READY-TO-USE Herbicide is quickly absorbed through the leaves and moves within the plant, all the way down to the roots. Once inside of the weed, TOUCHDOWN READY-TO-USE Herbicide interrupts the plant's ability to produce an enzyme found only in plants, causing weeds to yellow and wilt, with complete kill in 1 to 2 weeks. Any product that is not absorbed by the plant breaks down into natural materials and will not move in the soil or to untreated plants.

DIRECTIONS FOR USE

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Weed Killer	Kills most annual and perennial weeds and grasses
Uses	<ul style="list-style-type: none"> - to edge lawns and kill weeds around fences and other structures - to control weeds on patios and driveways - to kill vegetation when renovating lawns and gardens or in vacant lots, storage or recreational areas - to kill weeds in hard to mow areas and around trees and shrubs - to control unwanted brush (e.g. poplar, ash, maple, raspberry)

When to apply	<ul style="list-style-type: none"> - apply when plants are vigorously growing - apply to annual weeds anytime after emergence - apply to perennial weeds after seed heads, flowers or berries appear - best results are achieved when used during warm, sunny weather (at least 15°C) - do not spray when winds are gusty to prevent drift - to control brush, apply after leaves expand. Apply only to trees and bushes up to 1.5 m in height. Cut down taller plants and spray regrowth
How to apply	<ul style="list-style-type: none"> - the 1 L container will treat 24 m² - adjust the spray nozzle to desired spray setting - spray undesired plant until wet but not to the point that the spray runs off the plant - when spraying around trees and shrubs, avoid contact with foliage, stems or green bark of desirable plants - if drift accidentally comes in contact with plants you do not want to kill, rinse immediately with water
Considerations	<ul style="list-style-type: none"> - once the spray solution has dried, people and pets may re-enter the treated area - heavy rainfall or irrigation shortly after application may reduce effectiveness - extremely cool or cloudy weather following application may slow activity or delay development of visual symptoms - poor control may occur if weeds are heavily covered with dust - not recommended for spot treatment in lawns as TOUCHDOWN READY-TO-USE Herbicide will kill lawn grasses as well as weeds - TOUCHDOWN READY-TO-USE Herbicide does not provide residual soil activity. Desired plants may be planted 1 day after application.
CAUTION	AVOID SPRAY CONTACT ON DESIRABLE PLANTS AS ANY PLANT CONTACTED MAY BE KILLED.

For further information or to report suspected resistance, contact company representatives at 1-87-SYNGENTA (1-877-964-3682) or at www.syngenta.ca.
