Go Green Doktor Doom Granular Bait C is ready-to-use bait for the control of cockroaches and ants in homes, apartments, garages, public and private institutions, schools, hotels, hospitals, pet stores, zoos, kennels, warehouses, supermarkets, restaurants, vending machines and food processing plants.

#### DIRECTIONS FOR USE:

**APPLY PRODUCT ONLY IN AREAS INACCESSIBLE TO CHILDREN AND PETS. DO NOT APPLY AS A BROADCAST APPLICATION.** To kill cockroaches and ants in food handling establishments, homes, restaurants, markets, schools, warehouses, factories, offices, hotels, motels, hospitals, nursing homes, garages, grocery stores, apartment buildings, new construction, industrial plants, theatres, ships, boats, trains, trucks, yachts, camps, mobile homes, buses, pet stores, zoos, kennels, military bases, libraries, utilities and sewers. This product is designed to be used as a residual treatment in an Integrated Pest Management program incorporating good sanitation practices.

**General treatment:** Use a mechanical spreader or applicator suitable for granular products to apply at a rate of 2.0 kg per 100 square metres of surface area, out of the reach of children and pets. Spread evenly in crawl spaces, attics, drop ceilings, and cellars with dirt or gravel floors. In attics, be sure to apply in eaves and access drains. In warehouses, garages and basements, concentrate application along walls and baseboards. In new construction, apply in wall voids and other areas where insects may hide. Concentrate application in areas where insect activity is greatest. Go Green Doktor Doom Granular Bait C may be placed in removable trays in areas accessible to insects but away from children and pets. Always record the location and number of bait stations. In sewers, apply along ledges and around manhole entrances. Reapply as necessary.

**Crack and crevice treatment:** Apply in inaccessible areas such as cracks and crevices where insects may hide. Crack and crevice applications may be made using most types of dust applicators. A bellows type duster or Nisus Corporation's Snuffer™ applicator works best. Insert stem into gaps, cracks and crevices and apply 2 to 6 puffs per 0.3 linear metre, depending upon the severity of the infestation. Drill small holes to gain access into wall voids and under cabinets. This product may also be applied in appropriate areas with a power duster. Consult equipment manufacturer for recommended settings. Apply Go Green Doktor Doom Granular Bait C under and behind refrigerators and other appliances, sinks, counters; into openings around drains, water pipes and electrical conduits; and in cracks and crevices along baseboards and corners of cabinets, cupboards and closets. Remove all lower drawers in kitchen and bathroom cabinets, bedroom dressers and chests of drawers, then carefully apply Go Green Doktor Doom Granular Bait C in drawer wells. Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs, utensils and food preparation areas. Any bait visible after application must be brushed into cracks and crevices or removed. Reapply as necessary.

**Application in food areas of food handling establishments:** A food handling establishment is any place where food is held, processed, prepared or served. Food areas

include areas for receiving, preparing, serving, packaging and storing food. Apply only when these areas are not in operation, and only as a crack and crevice treatment. Cover or remove food commodities, food processing equipment, packaging materials and utensils before application. Thoroughly clean all surfaces that may contact food and rinse with potable water before reuse.

#### PRECAUTIONS:

**KEEP OUT OF REACH OF CHILDREN AND PETS.** Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash hands after use. Wear long pants, long-sleeved shirt, chemical-resistant coveralls and chemical-resistant gloves when applying boron. The use of protective gloves, eye wear and dust mask is recommended during the loading and application of this product.

#### FIRST AID:

**If Swallowed:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

**If In Eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

#### STORAGE:

Store bait in original, tightly sealed container. Store in a cool, dry place. Do not contaminate water, food or feed by storage or disposal.

#### DISPOSAL:

1. Thoroughly empty the contents of the container into the application device.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.

5. For information on disposal of unused, unwanted product contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for cleanup of spills.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
