Clear Choice™ Ready-to-Use Selective Herbicide

Liquid

Specially formulated microtechnology for hard-to-kill weeds in turf. Contains amines of mecoprop, 2,4-D and dicamba

CONTROLS LAWN WEEDS LISTED ON LABEL

DOMESTIC

GUARANTEE:	2,4-D (present as dimethylamine salt)	0.47 g.a.e./L
	Mecoprop-P (present as dimethylamine salt)	0.30 g.a.e./L
	Dicamba (present as dimethylamine salt)	0.058 g.a.e./L

Contains 2-METHYL-4-ISOTHIAZOLIN-3-ONE at 0.00037% as a preservative

Contains 5-CHLORO-2-METHYL-4-ISOTHIAZOLIN-3-ONE at 0.00113% as a preservative

Patent Pending
Low Odour Formula
Reduced Active Ingredient formula using Microtechnology

Specially formulated to target weeds and not lawns when used as directed.

Micro-sized droplets help active ingredients penetrate into weeds more efficiently

CONTROLS SELECT LAWN WEEDS

CONTROLS: white clover, broadleaf plantain, narrow-leaf plantain, and black medick.
Suppresses dandelion.

DIRECTIONS:

SHAKE WELL BEFORE USING.

Step 1: Shake Well Step 2: Apply Step 3: Let Dry

Aim nozzle at the weed to be treated and spray to wet.

USE PRECAUTIONS:

DO NOT water within 24 hours after application. Rain within 6 hours reduces effectiveness.

Spray acts within a few days and weeds gradually die. Grass fills in as weeds disappear.

Some weeds may require up to 4 weeks for complete kill. Repeat in 3-4 weeks if necessary.

This product is designed to target treatment of weedy areas of lawns.

This product is only effective when applied post emergent to the leaves of actively growing weeds.

This product will not prevent new weeds from growing from seed.

DO NOT apply to any body of water.

DO NOT contaminate irrigation/drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Desirable broadleaf terrestrial plants can be harmed by contact with product spray.

DO NOT directly spray or allow the spray to drift onto ornamental plants and trees, fruits, vegetables or exposed roots of trees and ornamentals.

This product may injure bentgrass. DO NOT apply to bent grass turf.

Avoid application of this product when winds are gusty.

DO NOT apply to driveways, sidewalks or any other hard surface.

Turf injury may be observed as tanning or browning of leaf edges, brown patches, or as leaf curling. However, the turf should recover. The application of Clear Choice™ Ready-to-Use Selective Herbicide should be carefully directed to the weeds, while minimizing contact with the surrounding turf.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes, skin and clothing. Store in original container in a dry, secured storage area. Keep container tightly closed when not in use.

Protective Clothing:

Wear long-sleeved shirt, long pants, socks, shoes and chemical-resistant gloves.

Operator Use Precautions:

Wash hands before eating, drinking, using tobacco or using the toilet.

After treating, wash thoroughly.

If pesticide penetrates clothing, remove immediately; then wash contaminated skin thoroughly and shower. Launder contaminated clothing separately before reuse.

Re-entry Interval for Turf:

Do not allow people (other than the applicator) or pets on the treatment area during application.

Do not enter treated areas until spray has thoroughly dried.

Maximum Application Frequency to Turf:

For good turf/lawn management, normally two applications per year per treatment site are adequate.

This product is mainly used as spot treatment and can be used as needed.

ENVIRONMENTAL HAZARDS:

Toxic to aquatic organisms and non-target terrestrial plants.

FIRST AID: If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

STORAGE:

Do not store near seeds, fertilizers, insecticides or fungicides. Keep from freezing. Store in original container in a dry, secured storage area. Keep container tightly closed when not in use.

DISPOSAL:

DO NOT reuse the empty container. Wrap and dispose of empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
