Gourmet Liquid Ant Bait will control ants indoors and outdoors. In or near: homes.

Gourmet Liquid Ant Bait incorporates borax in a special food bait which is highly attractive to ants. Ants pick up the bait and take it to their nests to feed the colony. The borax works slowly to kill all the ants in the colony, usually in about 7 days.

DIRECTIONS FOR USE: Indoors: Place traps 1.5-3.0 meters apart where ants are numerous. Use sufficient traps for quick control. Replace traps as needed. Outdoors: Place traps near where ants enter dwellings, and near ant-hills in lawns or gardens. Space traps 5 meters apart.

To activate Gourmet Liquid Ant Bait, place station on a flat surface with the cone facing up. If the cone is filled with liquid bait, move the station from side to side rapidly and liquid will leave the cone. With a knife or scissors, cut the top of the cone, so that the top of the remaining cone is level with top of surrounding circular surface.

PRECAUTIONS: Apply/use only in areas inaccessible to children and pets. **KEEP OUT OF REACH OF CHILDREN AND DOMESTIC ANIMALS.** Avoid contamination of water, foodstuffs and utensils. Wash after use.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor **IMMEDIATELY** for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Do not reuse empty container. Wrap empty container and discard in household garbage.
