

2023-6538  
2024-07-09

This label has been updated according to the re-evaluation decision for Sodium Hypochlorite and Calcium Hypochlorite RVD2023-14. While users are encouraged to follow this updated label immediately, the previously approved label is valid until 08-29-2025 in accordance with the phase out period set out in the re-evaluation decision for Sodium Hypochlorite and Calcium Hypochlorite RVD2023-14. This previously approved label will be provided upon request by emailing [hc.pmra.info-arla.sc@canada.ca](mailto:hc.pmra.info-arla.sc@canada.ca). In your email please include the product name and Registration number of the label you are requesting.

# HTH® Green to Blue I

DOMESTIC

for swimming pools  
powerful chlorinating granules  
removes organic waste and promotes sparkling clean swimming pool water  
treats algae

Reg. No. 30658 P.C.P. Act

**KEEP OUT OF REACH OF CHILDREN**

**READ THE LABEL BEFORE USING**

**ACTIVE INGREDIENT:**

Available chlorine present as calcium hypochlorite ..... 52.1%

## WARNING DANGER

## POISON CORROSIVE TO EYES AND SKIN

Strong oxidizer. Contamination or improper use may cause fire, explosion or the release of toxic gases. Add only into water. DO NOT use this product in any feeder, floater, skimmer or other dispensing device that has been used with any other product.

NET CONTENTS: 400 g - 10 kg

Innovative Water Care, LLC  
2475 PINNACLE DR.  
WILMINGTON DE 198031-800-654-6911

## **DIRECTIONS FOR USE:**

**WATER BALANCE:** Maintain recommended daily levels as determined by a test kit or test strips:

Free available chlorine: 1.0 - 3.0 ppm pH: 7.2 - 7.8

Total alkalinity: 80 - 120 ppm

Calcium hardness: 200 - 300 ppm

### **HTH GREEN to BLUE I**

**ALGAE REMEDIATION:** At the start of the season, or if a severe algae bloom occurs during the season, the pool can be treated to help it return to its clear blue appearance by using this product. This two-part system treats algae that has invaded your pool and then makes it easy to vacuum out.

1. While the circulating system is running, broadcast 870 g of product per 20,000 L. Heavy algae infestation may require dosages up to 1.25 kg per 20,000 L pool water. Direct contact may cause bleaching of vinyl or painted pool surfaces. If any granules settle to the bottom of the pool, use brush to disperse and help it to dissolve.
2. Once **HTH® Green to Blue I** has completely dispersed, change valve to recirculate position and add 300 g of the **HTH® Green to Blue II** flocculent per 20,000 L of water through the skimmer.
3. Leave the system circulating for 1 hour then turn off the filter pump and allow debris to settle overnight.
4. The following day, change the valve to waste and vacuum the sediment to waste.
5. Return valve to filter position after pool has been vacuumed.

Check the chlorine level and readjust as necessary. Balance the water chemistry following the recommended values. Do not enter pool until the free available chlorine residual is 1–3 ppm.

**NOTE:** Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals. For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by addition of stabilizer (cyanuric acid).

**PRECAUTION STATEMENTS: KEEP OUT OF REACH OF CHILDREN. DANGER: Highly Corrosive.** Causes skin burns and irreversible eye damage. May be fatal if swallowed. **CORROSIVE** to the eye. **DO NOT** get in eyes. Corrosive to the skin. **DO NOT** get on skin. Wear eye protection, protective clothing and rubber gloves when handling this product. Use only thoroughly clean, dry utensils when handling. Harmful if inhaled. Avoid breathing dust and fumes. Do not apply in windy conditions. Remove and wash contaminated clothing before reuse. Strong oxidizing agent. Dangerous gas formed when mixed with acid. Do not use this product in any feeder, floater, skimmer or other dispensing device that has been used with any other product. Do not mix with any other chemical. Do not allow product to contact any foreign matter, including other pool/spa treatment products. Do not allow to become wet or damp before use. Do not add water to this product. Add only into water. Do not mix this product in a small amount of water. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

**FIRST AID:**

**IF SWALLOWED:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**IN CASE OF EMERGENCY CALL: 1-800-654-6911.**

**TOXICOLOGICAL INFORMATION:** Probable mucosal damage may contraindicate the use of gastric lavage. Treat symptomatically.

**ENVIRONMENTAL PRECAUTIONARY STATEMENT:** Toxic to aquatic organisms. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes. This registration is granted under the *Pest Control Products Act* and does not exempt the user from any other legislative requirements.

**STORAGE:** Store this product away from food or feed. Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

**EMERGENCY HANDLING:** In case of contamination or decomposition, do not reseal container. If possible, isolate container in an open and well-ventilated area. Flood with large volumes of water.

**DISPOSAL:** Rinse container thoroughly before discarding. DO NOT reuse empty container. Dispose the empty container with household garbage. For disposal of a contaminated or decomposing product, see Emergency Handling. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
