Weedender is most commonly used for spot weed control in lawns and gardens as well as for control of vegetation in sidewalk and driveway cracks.

This product is known to be effective for the treatment of annual weeds such as Black Medic, Chickweed, Lamb's-quarters and Ragweed, as well as perennial weeds such as dandelion, plantain, and wild carrot.

DIRECTIONS FOR USE

Weedender is best used through spraying during warm, sunny weather onto young and newly established weeds to the point of wetness. It is most effective on young weeds. Older perennial weeds may require multiple treatments. The product is best used in dry conditions; rain or watering washes the product away, reducing its effectiveness.

All of the target plant must be sprayed for complete control. Nearby plants should be protected from the spray by using a cloth or towel, which can be washed after use.

Do not touch the weeds until the product has dried. Do not re-enter or allow re-entry into the treated area until the product has dried.

The product should be used as is; diluting this product will reduce its efficacy.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

CORROSIVE to the eye. DO NOT get in eyes. Avoid contact with skin and clothing.

Avoid inhaling vapours or spray mist. Causes irritation of the respiratory tract.

This product may cause a mild burn or irritation to the skin.

Do not use this product near reactive metal products such as aluminum siding and lawn furniture, tin and iron products. Rinse the metals parts immediately with water to minimize the effect.

Wear protective eyewear during loading and application. Wash immediately after use. Wash contaminated clothing with soap and hot water before reuse. DO NOT re-enter or allow entry into the treated areas until the residues have dried. Handling of the product must be done in a well-ventilated area.

STORAGE

To prevent contamination, store this product away from food or feed. Keep from freezing. Store in original container out of reach of children.

DISPOSAL

DO NOT reuse the empty container. Dispose of container in household garbage. Unused or partially used products should be disposed at provincially or municipally designated disposal sites.

FIRST AID

If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
