PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Causes eye and skin irritation. Irritating to nose and throat. May be fatal if inhaled. DO NOT inhale dusts. Avoid contact with eyes, skin or clothing. Do not mix with any other chemical. Use with adequate ventilation. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before re-use. Do not smoke, drink or eat when handling. Do not use this product with an electrolysis device (for example, a chlorine generator). Do not use this product with ozonation. Do not use this product with ultraviolet (UV).

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Keep container closed and store in a cool, well-ventilated area. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or wrap empty container and discard in household garbage.

GLB® Green Free Algaecide is formulated to clear water of green colored algae in swimming pools. This product is safe for use on all types of swimming pool surfaces including concrete, tile, vinyl and gunite.

This product is for the treatment of algae blooms, but is not intended for regular use. Regular use may influence your water chemistry. Consult your pool dealer for more information.

DIRECTIONS FOR USE:

1. Thoroughly brush areas that have green algae deposits.
2. Using the upper cap, measure 120 g of **GLB Green Free Algaecide** per 40,000 L of pool water and disperse throughout affected area.
3. Wait 5 minutes and add 4 L of liquid chlorine (10.3% available chlorine present as sodium hypochlorite) or 625 g of dry chlorine (65% calcium hypochlorite) per 40,000 L of water to activate the **GLB Green Free Algaecide** treatment. Dispense chlorine around the entire pool. Wait at least 3 hours before swimming.
4. To help restore water clarity, add 30 mL of **GLB Clear Blue®** clarifier per 20,000 L of water.
