SPACHEMBROMINATING TABS  
SANITIZER FOR SPAS AND HOT TUBS  
CONTROLS BACTERIA & ALGAE IN SPA WATER

DOMESTIC

GUARANTEE:

AVAILABLE BROMINE..... 64.0%

AVAILABLE CHLORINE..... 28.0%

Both present as 1-Bromo-3-Chloro-5.5 Dimethyl Hydantoin and Related Hydantoins

REG. NO. 31087 P.C.P. ACT

**WARNING**

POISON      CORROSIVE

DANGER- CORROSIVE TO EYES AND SKIN. POTENTIAL SKIN SENSITIZER.  
DANGEROUS GAS FORMED WHEN MIXED WITH ACID.

KEEP OUT OF REACH OF CHILDREN.

READ THE LABEL BEFORE USING

NET CONTENTS: 700 g

Tablet Weight: 20 g

Pool Chemical Industries Ltd., 1200 Corporate Drive, Burlington, Ontario L7L 5R6

### BROMINE TABLETS

Bromine tablets, when used as directed, are effective as a spa water sanitizer.

**WARNING:** Direct tablet contact may cause bleaching of vinyl or synthetic spa surfaces.

Automatic feeding devices employing these tablets must be totally free from traces of other spa sanitizers to avoid the probability of an explosion.

**DIRECTIONS FOR USE:** Weight per tablet - 20 g

1. Maintain recommended daily levels as determined by testing kit.

Free available bromine: 3.0-5.0 ppm      Total Alkalinity: 100-150 ppm

pH: 7.2-7.8

Calcium Hardness: 100-200 ppm

2. If using an automatic feeding device, fill the chamber(s) with tablets and adjust flow rate, according to the manufacturer's recommendations to maintain proper bromine residual. Adding tablets to spa's skimmer basket is an alternative bromine feed method. Daily usage should approximate 5 g of bromine tablets per 1,000 L of spa water. **NOTE:** Heavy spa usage, and higher temperatures may require higher usage rates to maintain proper bromine residuals.

3. Periodic superchlorination of spa water is recommended. Follow label instructions of superchlorination product being employed. **NOTE:** persistent foam formation, turbid, malodorous water are indicators of inadequate sanitizer levels. To correct such conditions, superchlorinate spa water by adding superchlorination product. Maintain circulation at least 30 minutes and wait 4 hours before using. For proper sanitation, spa must be completely drained periodically. The number of days between COMPLETE SPA DRAINAGE is equal to the volume of spa water in litres, divided by 10 times the maximum number of daily spa users. Refill spa with water and repeat DIRECTIONS FOR USE. Maximum spa water usage temperature is 40°C.

Duration in spa water at 40°C should not exceed 15 minutes.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. IRRITANT. POTENTIAL SKIN SENSITIZER. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. Corrosive to eyes and skin.. Causes eye damage and skin burns. Dust may be harmful or fatal if inhaled. May be harmful or fatal if swallowed. Do not get in eyes, skin or clothing. It is recommended to wear rubber gloves and goggles when handling the product. Do not swallow. Avoid breathing dust.

**FIRST AID: IF swallowed,** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

**IF in eyes,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**IF on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

**IF inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**STORAGE:** Keep container closed and store in a cool, dry location.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposing of wastes.

**DISPOSAL:** Rinse container thoroughly before discarding. Do not re-use. Offer for recycle if available. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of spill, and for clean-up of spills.
