Made in USA

Peel Back For Instructions

PESTS/SITES:

Green it™ 4-in-1 Grass and Weed Killer Ready-to-Use is a non selective herbicide designed for control or suppression of grass and broadleaf weeds, such as (but not limited to): crabgrass, pigweed, morning glory, amaranth, carpetweed, burning nettle; mosses, algae, liverworts, and lichens.

Use on weeds within flower gardens, landscaped areas, around and on buildings, sidewalks, fences, bark mulch, driveways, patios and gravel.

Use on mosses, algae, liverworts, and lichens around and on buildings, roofs, decks, sidewalks, fences, bark mulch, driveways, patios and gravel.

GENERAL INSTRUCTIONS:

Green it™ 4-in-1 Grass and Weed Killer Ready-To-Use is a contact non-selective herbicide for spray application only to undesirable plant growth. Do not allow spray to contact any green plant parts of desirable plants. Green it™ 4-in-1 Grass and Weed Killer Ready-To-Use provides control and rapid burndown suppression of annual and perennial broadleaf and grass weeds. Spore producing plants such as mosses and liverworts are also controlled. The amount of burndown and the duration of weed suppression may be reduced when conditions are unfavorable to weed growth or when plants are mature.

Green it™ 4-in-1 Grass and Weed Killer Ready-To-Use herbicide is a fatty acid ammonium salt product which penetrates the cell walls of plants to disrupt the cellular organization of physiological functions which are compartmentalized by membranes within the cell walls. Plant growth ceases when cellular contents are mixed which causes brown necrotic plant tissue.

Green it™ 4-in-1 Grass and Weed Killer Ready-To-Use herbicide does not migrate through soil and is not translocated in plants. To ensure satisfactory control, plant leaves must be thoroughly and uniformly covered with the spray solution. Green it™ 4-in-1 Grass and Weed Killer Ready-To-Use does not provide any residual weed control in soil to affect germinating weed seeds.

DIRECTIONS FOR USE:

ON WEEDS: Any standard hand-held or backpack sprayer can be used. Spray weeds thoroughly, using a coarse nozzle setting to reduce drift. Through coverage is extremely important. For spot treatment of individual weeds, apply the solution to the center of plant to the point of runoff.

Best results are obtained with young, actively growing weeds, less than 12 cm high. The product works best during warm and dry conditions, but also works in cold weather. Application in cold conditions may delay appearance of plant damage. If rain falls within three hours of treatment, an additional treatment may be required. Plant damage will be visible from a few hours to two days after the treatment.

Repeat treatment every two to three weeks to control new weeds growing from seed and re-growth from biennial and perennial weeds. Avoid spraying desirable plants. Thoroughly clean equipment after use.

ON MOSSES, ALGAE, LIVERWORTS, AND LICHENS: Spray moss and algae thoroughly as complete coverage is extremely important. Plant damage will be visible from a few hours to two days after the treatment. On mosses, algae, liverworts and lichens, one application may last up to one year. Repeat treatment if re-growth occurs. Avoid spraying desirable plants. Do not apply to moss or algae in lawns. Thoroughly clean equipment after use. **Treated surfaces may be slippery when wet.**

[OPTIONAL DFU – TRIGGER SPRAYER

TRIGGER SPRAYER INSTRUCTIONS:

EASY SET UP

1. Remove sprayer from holder. Gently pull tubing.
2. Remove seal from top of cap. Remove plug from cap.
3. Securely snap the plug on end of tubing into hole on cap.
4. Remove plastic tab to activate batteries.
5. Twist nozzle to adjust spray from CLOSE to SPRAY to STREAM.

HOW TO USE

- A. Aim toward target and away from people and pets.
- B. Press the trigger to spray.
- C. Release the trigger to stop spray.

After use:

1. Twist nozzle completely to CLOSE position.
2. Secure sprayer upright in holder.
3. *Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.*

To replace batteries:

1. Slide battery compartment door to unlatch and open.
2. Remove used batteries and insert new AA batteries in correct positions as marked per diagram inside of battery compartment. Never insert the positive end where the negative end belongs and vice versa.

Always use a complete set of new batteries of the same type when replacing batteries. Never mix alkaline, carbon-zinc or rechargeable batteries.

3. Securely close battery compartment door.
4. Always follow manufacturer's recommendations for use and disposal of batteries.

Additional Operating Notes:

• Do not submerge in water. • Before each use, inspect sprayer carefully. Make sure hose is flexible and not kinked, worn or cracked, and that all connections are tight. • When storing sprayer for prolonged periods remove batteries.

NOTE: Trigger Sprayer is to be used only for this product.]

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. May irritate eyes. Avoid contact with eyes. Use only in well ventilated areas. For good hygiene practice, wear gloves when handling this product.

Avoid direct application to ponds, streams and lakes. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, and then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

Do not reuse empty container. Dispose of empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
