#### **FIRST AID**

**IF SWALLOWED:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by a poison control centre or doctor. DO NOT give anything by mouth to an unconscious person. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

#### **PRECAUTIONS**

KEEP OUT OF REACH OF CHILDREN. DO NOT place in direct contact with flammable surfaces. Avoid prolonged inhalation of smoke. Cover exposed food to avoid contamination. DO NOT touch lit end. After using, wash hands with soap and water.

#### **DIRECTIONS FOR USE**

MOSQUITO SHIELD MOSQUITO COILS help to repel mosquitoes in outdoor areas where there is little or no breeze such as (patios and porches / patios, porches, picnic areas and campsites).

#### **FOR OUTDOOR USE TO (KILL AND) REPEL MOSQUITOES**

##### **Use Limitations**

FOR OUTDOOR USE ONLY. **DO NOT** use inside buildings or in enclosed spaces (, including covered patios or tents).

Stand serves as a holder for the coil. (Pull/Bend) the centre piece to upright position. (Each disc consists of two (2) coils that should be separated.) Loosen outer rings of coil until end moves freely. Grasp each comma-shaped portion in the center between thumb and forefinger of each hand. Separate the two comma-shaped coils by gently pressing them in opposite directions 5 mm apart. Hold one comma shaped end and shake lightly or gently pry apart to separate the coils. Insert tip of coil stand into slot in comma shaped end of coil. Light outer end of coil until glowing. Blow out any flame and allow to smolder. Place (one coil per 9 m<sup>2</sup> in area / coils 2-3 m apart around area / 3-4 coils about 3 meters apart around area) where mosquitoes are to be repelled. **DO NOT** use in windy areas. Use in outdoor areas, including backyards, patios, porches and decks, which are sheltered from effects of wind and more easily protected by coils. (In light winds, place coils upwind where possible to make use of associated drift. If shorter periods of use are desired, break coil into appropriate lengths and place in notched cut-out of holder.) One coil will burn for approximately 5 hours.

**STORAGE:** Store in a cool, dry place in original container. Store this product away from food or feed.

**DISPOSAL:** DO NOT reuse empty container. Dispose of empty containers and stands in household garbage.
