**REFILL FOR
ROUNDUP® READY-TO-USE WITH WAND APPLICATOR**

KILLS THE ROOTS!

REFILL FOR ROUNDUP® READY-TO-USE WITH WAND APPLICATOR, a non-selective grass and weed killer, controls most annual and perennial grasses, including lawn grasses, broadleaf weeds and brush (i.e. virtually anything that is green and growing). This product is absorbed by the leaves and moves throughout stem and roots to control the entire plant. Visible symptoms of control, such as browning or yellowing of leaves, will occur within 1-2 days. For best results, to ensure that REFILL FOR ROUNDUP® READY-TO-USE WITH WAND APPLICATOR gets down to the roots, avoid tillage or disturbing the treated area for 7-10 days (or as otherwise specified on the label). This will ensure that the entire plant, including the root, is eliminated. Rain or watering two hours after application will not wash away effectiveness.

NOTE: REFILL FOR ROUNDUP® READY-TO-USE WITH WAND APPLICATOR has no soil activity and will not leach or run off to affect nearby vegetation. Plants must be present to be controlled. Repeat applications will be required as new seedlings and vegetation emerge.

USES: Lawn edging/trimming, patio weed control, lawn/garden renovation, hard to mow areas.

NOTE: AVOID SPRAY CONTACT ON DESIRABLE PLANTS AS ANY PLANT MAY BE KILLED BY CONTACT.

DIRECTIONS FOR USE:

Glyphosate is not to be applied using hand-wicking or hand-daubing methods.

Use this product as a refill for empty containers of Roundup® Ready-to-Use with Wand Applicator, PCP# 31154. DO NOT add water.

Use the applicator from the empty bottle to connect to this refill:

1. [Flip up spout on refill bottle./Flip up spout until fully upright./Twist [spout/knob] to "ON"./Pull spout up.] [Ensure that spout is fully engaged in the upright position.]
2. Insert hose connector from applicator handle into [spout/knob/opening] on cap until it "clicks" in place.
3. Adjust spray nozzle to desired spray pattern.
4. Aim sprayer nozzle at centre of weed and spray to wet.
5. Storage: After use, [close spout on cap./flip spout down to the "flat" position to close./twist [spout/knob] to "OFF"./push spout down.] No need to disconnect [applicator/sprayer hose] [from cap]. Close nozzle on applicator.

USE	APPLICATION INSTRUCTIONS	CONTROLS	COVERAGE
Undesirable vegetation control (i.e. hard to mow areas, around buildings). Lawn trimming/edging, patio weed control, vacant lots, storage & recreational areas, driveways.	Apply to vigorously growing plants. Apply to annual weeds anytime after emergence. For perennial weeds apply after seed heads, flowers or berries appear.	Most annual and perennial grasses and weeds, such as quackgrass, chickweed, ragweed, knotweed, poison ivy, Canada thistle, milkweed, bindweed.	Ensure uniform and complete spray coverage but not to the point of run-off.
Around Trees/Shrubs/Ornamentals	Apply around base in a neat fashion. Avoid spray or drift contact with foliage, stems or green bark of desirable plants.		
Lawn/Garden renovation	For best results on lawns, skip one mowing prior to treatment. Allow at least 3 days after treatment before disturbing the soil and/or replanting.		
Brush control	Apply after leaves are fully expanded. Treat trees and brush up to 1.5 m in height only; for taller plants cut down and spray regrowth.	Most brush such as Poplar, Alder, Maple and Raspberry	
<p>CAUTION: Avoid spray contact on desirable plants as any plant contacted may be killed. Do not spray in windy conditions. Do not spray to the point of run-off. Rain or watering two hours after application will not wash away effectiveness. However, heavy rainfall immediately after application may wash the chemical off the foliage and repeat treatment may be required. Do not apply if rainfall is forecast for the time of application.</p>			

PRECAUTIONS:

CAUTION: EYE IRRITANT. HARMFUL IF SWALLOWED. Avoid contact with eyes or prolonged contact with skin. Do not allow others such as children and pets on treatment area during application or to re-enter treated areas until spray has dried. Wash immediately after using this product. Do not contaminate water, foodstuffs, seed or feed by storage or disposal.

FIRST AID:

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

STORAGE:

Store product in its original container in a secure area away from children and pets and away from direct sunlight. Keep from freezing

DISPOSAL:

Do not reuse or refill this container with any other product. Wrap and dispose empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
