KEEP OUT OF REACH OF CHILDREN

READ THE LABEL BEFORE USING

ACTIVE INGREDIENT :

Available chlorine present as calcium hypochlorite 52.1%

DANGER. Strong oxidizer. Contamination or improper use may cause fire, explosion or the release of toxic gases. Add only into water. **DO NOT** use this product in any feeder, floater, skimmer or other dispensing device that has been used with any other product.

CAUTION

POISON

CORROSIVE

NET CONTENTS: 57g – 34.1 kg

Innovative Water Care, LLC
1400 Bluegrass Lakes Parkway
Alpharetta, GA 30004
1-800-654-6911

DIRECTIONS FOR USE

Maintain daily levels as determined by a test kit or test strips.

Free available chlorine:	1-3 ppm
pH:	7.2-7.8
Total alkalinity:	80-120 ppm
Calcium hardness:	200-300 ppm

METHOD OF APPLICATION: Add required dosage of this product during evening hours while the filter is running. Measure with a clean, dry spoon or cup used solely for this purpose. Broadcast the product evenly over a wide area in the deepest part of the pool. Direct contact may cause bleaching of vinyl or painted pool surfaces. If any granules settle to the bottom of the pool, use brush to disperse. Let filter pump run 6 to 8 hours minimum after applying.

DOSAGE

START-UP: When opening your pool, shock treat by adding 200 g of this product per 10,000 L of water. Repeat dosage as needed until the free available chlorine is 1-3 ppm.

For routine dosage (maintenance levels) of sanitizer, refer to the label of your sanitizer's directions for use.

SHOCK TREATMENT: Shock treat weekly using 200 g of this product per 10,000 L of water when average daily temperature is above 25°C, otherwise shock treat every other week. Shock treat to remedy problems which may occur when bather loads are high, water appears hazy or dull, unpleasant odors or eye irritation occurs, or after heavy wind and rainstorms. Do not enter pool until free available chlorine residual is 1-3 ppm.

Note: Prolonged contact with pool surface may cause staining or bleaching. Immediately after treatment, thoroughly clean pool by scrubbing surface, vacuuming and cycling through the filter. If necessary, repeat the treatment. Pool should not be entered until the chlorine residual is 1-3 ppm.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. DANGER: Highly Corrosive.

Causes skin burns and irreversible eye damage. Harmful if absorbed through skin. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear eye protection, protective clothing and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling. Strong oxidizing agent. Dangerous gas formed when mixed with acid. Use only clean, dry utensils to dispense this product. Do not use this product in any feeder, floater, skimmer or other dispensing device that has been used with any other product. Do not mix with any other chemical. Do not allow product to contact any foreign matter, including other pool/spa treatment products. Do not allow to become wet or damp before use. Do not add water to this product. Add only into water. Do not mix this product in a small amount of water. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gasses and spatter. Contamination or improper use may start a chemical reaction that can give off heat and hazardous gasses and may cause a fire or explosion. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Treat symptomatically.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and other aquatic organisms. Do not contaminate lakes, ponds, or streams by cleaning of equipment or disposal of wastes.

STORAGE : Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

<p>EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water</p>
--

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations.

For disposal of a contaminated or decomposing product, see Emergency Handling. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
