GOOD CLEAN DIRT® for Bedbugs is pure diatomaceous earth. It kills bedbugs by abrading their exoskeletons upon contact, causing fatal dehydration within 2 days. This odourless powder will not stain and is not harmful to animals, fish, or fowl if label directions are followed.

DIRECTIONS FOR USE: Disassemble beds and dust frames, joints, mattresses, tufts and seams, floors and baseboards. Use 50 grams per 10 meters². Bedbugs cannot build up resistance to this pesticide, and it remains effective as long as it is present.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid breathing dust. Do not use as a space spray. Avoid contact with eyes. Wash hands after use.

FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. In case of contact with skin, flush with plenty of water. Contact a physician if irritation persists. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Do not reuse empty container. Wrap and dispose of empty container with household garbage.
