## **BACK OF PACKAGE:**

### **SELECTION**

#### **ANT CONTROL SYSTEM**

An effective method for destroying ants in six child resistant containers.  
Effective and easy to use.

#### **HOW THE SYSTEM WORKS:**

The ants you see are worker food providers to the Queen Mother and the larvae residing in the nest. The worker ants feed the colony and then themselves.

Thus, the entire colony is destroyed.

(Graphic on back panel: Tray, Bait, Suggested Tray Placement)

#### **DIRECTIONS FOR USE:**

1. Remove Bait Traps from Plastic Frame.
2. Remove all sources of food such as crumbs, sugar, and grease spots.
3. Place under sinks—refrigerator—cupboard.
4. Place by ant trails where ants are numerous.
5. For Garden & Lawn: Place along trails & ant colonies. Put traps 3-6 meters apart.

In 3-7 days ants will be killed. Replace with new traps every 30 days. Avoid contamination of feed and foodstuff.

#### **STORAGE AND DISPOSAL:**

**STORAGE:** Store in original container away from food and feedstuffs. Keep product in a locked storage area inaccessible to children and pets.

**DISPOSAL:** Do not reuse empty container. Securely wrap in newspaper and discard in household garbage.

#### **PRECAUTIONS: HARMFUL TO HUMANS AND DOMESTIC ANIMALS.**

#### **CAUTION: KEEP OUT OF REACH OF CHILDREN & DOMESTIC ANIMALS.**

Harmful if the contents from inside of this ant cup are swallowed. Wash thoroughly with soap and water after handling the ant cups.

**FIRST AID: IF SWALLOWED:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.
