MYAQUA POOL PRODUCTS

Magic MINZ

MINERAL TREATMENT

SWIMMING POOL ALGAECIDE
SOLUBLE GRANULES
DOMESTIC

REG. NO. 31532 P.C.P. ACT

ACTIVE INGREDIENT: Copper present as Copper Sulphate Pentahydrate..... 3.125%

WARNING: Staining of pool surfaces may occur due to deposits of copper salts. Excessive levels of copper will increase the probability of this occurrence.

READ THE LABEL BEFORE USING. KEEP OUT OF REACH OF CHILDREN.

- REDUCES CHLORINE USE
- CLARIFIES WATER
- STABILIZES pH

DIRECTIONS FOR USE:

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

DO NOT apply this product in a way that will result in direct contact with adults, children or pets.

For optimum results, ensure pump and filter are in proper working order. Before adding MAGIC MINZ, clean and shock treat pool with Bromine or Chlorine solution to 3ppm. Balance water as follows: pH 7.2, Total Alkalinity 80-150 ppm and Calcium Hardness 200-300 ppm.

OPENING: As a minimum treatment, add 57g (2 oz) of MAGIC MINZ per 4500 L (1000 gal) of pool water, which will result in a minimum concentration of 0.5 ppm copper. Distribute MAGIC MINZ by sprinkling across pool water surface, every meter or so around the perimeter of the pool, avoiding coping and any stairs. Run filter for 48 hours straight, back washing filter every 12 hours during the 48 hour period. For cartridge

filters remove and clean. Vacuum the next day. Thereafter reduce pump running time back to normal; 4-6 hours per day.

WEEKLY: As a minimum maintenance treatment, add 3.5g (1/8 oz) of MAGIC MINZ per 4500 L (1000 gal) of pool water (an additional 0.03 ppm copper) to maintain a minimum reading of 0.5 ppm copper. This amount will normally be sufficient, depending on water loss from backwashing the filter, etc. Check copper reading. Use readily available test kits to ensure copper levels are maintained at 0.5 ppm to 1.0 ppm. Do not exceed 1.0 ppm copper. Add sanitizer to achieve an ideal reading of – 1.5 ppm. If using a Brominator or Chlorinator, fill and place on lowest setting. Check and adjust pH to 7.2 pH. In periods of high temperatures or heavy traffic, it is recommended that sanitizer be used daily.

CLOSING: One week before closing pool, add 28g (1oz) of MAGIC MINZ per 4500 L (1000 gal) of pool water. Distribute MAGIC MINZ of by sprinkling across pool water surface, avoiding coping and any stairs. Run filter over night. The next day backwash filter, vacuum pool and backwash a second time. For cartridge filter remove and clean. Then return filter back to your normal operating schedule. Super-chlorinate pool upon closing with liquid chlorine (5-7 ppm) no closing kit required.

MINERAL TREATMENT

ELIMINATES ALGAE GROWTH

KEEPS POOL WATER SPARKLING

SAVE ON ELECTRICITY COSTS AND MAINTENANCE TIME

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. DO NOT get in eyes or on skin. Wear safety glasses. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing. Harmful if swallowed. Do not mix with other chemicals. DO NOT allow adults, children or pets to enter the treated area until dusts have settled.

ENVIRONMENTAL PRECAUTIONS:

TOXIC to aquatic organisms.

FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move the person toward a source to fresh air. If the person is not breathing, call 911 or an ambulance, then apply artificial respiration, preferably on mouth to mouth, if possible. Call a center anti-poison or a doctor for advice on the treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

STORAGE AND DISPOSAL:

Keep container closed when not in use. Keep in dry, cool place out of reach of children.

Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations.

For information on unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, or for clean-up of spills.
