SIDE PANEL

CIRCA 1850 DEX GREEN WOOD PRESERVATIVE is a paintable wood preservative that provides a soft green finish. It is developed exclusively for exterior, above ground use. It provides paintable protection against rot and mildew. It is ideal for the protection of decks, fences, door sashes window frames and millwork..

DIRECTIONS FOR USE:

For exterior use only. Not for use in dwellings. For above ground use only.

Apply by brush only. Do not spray or dip. Do not use this wood preservative or treated wood where the wood preservative may contaminate food, feed or drinking water.

CIRCA 1850 DEX GREEN WOOD PRESERVATIVE is only to be applied onto bare wood or wood previously finished with any of the CIRCA 1850 DEX wood preservatives. Wood surface should be clean and dry. Remove all paint, varnish, wax or any other coating that may prevent penetration with CIRCA 1850 SOFT STRIP. Allow to dry thoroughly before application or re-coating. Use caution with some paint finishes as they may cause bleeding.

Use as supplied - do not dilute. Do not apply to wood or fabric or any surface where prolonged skin contact may occur. May be used on greenhouse and garden

timbers in close contact with non-food producing plants only. Carrier solvent must be allowed to dry before introducing plants to prevent phytotoxicity.

Brush on liberal coats, saturating wood; heavier lumber may require more treatment. If rotting conditions are severe, allow to dry thoroughly before applying a second coat by brushing only. Allow 72 hours to dry. Will not bleed through if painted over except when white or pastel shades are used.

Clean equipment with mineral spirits, followed by detergent and water.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

COVERAGE:

Up to 23m² (248ft²) per 3.78L

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN AND DOMESTIC ANIMALS. Keep away from plants and foodstuffs. Do not use or store near open flame or spark.. Harmful if swallowed or inhaled. Good ventilation is necessary while treating. Causes skin and eye irritation. Potential skin sensitizer. Avoid breathing vapours, contact with skin, eyes and clothing. Wear a long-sleeved shirt, long pants, socks, shoes and rubber gloves when applying this product or handling freshly treated wood. Wash thoroughly after use with soap and water before eating or smoking. Keep container closed when not in use.

FIRST AID:

If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or

doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre for treatment advice.

If n on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled, Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Contains petroleum distillates and copper naphthenate; treat as for ingestion of kerosene. Vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS:

Toxic to aquatic organisms.

DISPOSAL AND STORAGE: Do not reuse empty container. Wrap empty container and discard in household garbage. Keep container closed when not in use. Store product out of reach of children. Do not store in areas subject to excessive heat.

KEEP AWAY FROM OPEN FLAME OR SPARK
