DIRECTIONS FOR USE:

How to Apply: DO NOT apply as a space spray or broadcast application. Apply as a crack and crevice treatment only to control pests listed on this label. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

Restrictions: DO NOT apply to any body of water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Avoid application of this product when winds are gusty. DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash following treatment. DO NOT apply when people or pets are present. DO NOT allow people or pets to enter treated areas until sprays have dried. DO NOT allow spray to drip or allow drift onto non-target surfaces. DO NOT apply to people, pets, livestock or sources of electricity. DO NOT apply to furniture, mattresses, linens, toys or clothing. DO NOT apply to overhead areas or in confined spaces (for example, indoors in attics, crawlspaces, small storage rooms, closets; and outdoors to eaves, soffits). When applied indoors, ventilate treated areas after application by opening windows and doors, or using fans where required to aid in the circulation of air. DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs). DO NOT apply as a space spray or broadcast application.

General Directions: SHAKE WELL BEFORE USE. [Wait approx. 30 seconds [before spraying] [to allow formula to [settle][/[[equilibrate]] [& for optimal stream]. Cover fish bowls when spraying. Within the specified use location, to enhance effectiveness of this product, apply this product directly to the listed pest where possible. Good sanitary practices should be maintained to prevent re-infestation.

Indoors of Buildings:

To Control Ants, Carpet Beetles, Cockroaches, Crickets, Earwigs, Millipedes, Sowbugs, Spiders and Silverfish: Thoroughly treat indoor building surfaces in hard to reach places areas including, cracks, crevices in walls, floors and ceilings; along and behind baseboards; around water pipes and tanks; walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units); around sinks, drains and pipes; around interior foundations; garbage cans; localized areas of floors and floor coverings; and points of entry (e.g., around windows and doors). Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Controls Fleas and Brown Dog Ticks: DO NOT SPRAY PETS WITH THIS PRODUCT. Only treat pets with products specifically registered for use on that type of pet. Apply to indoor building surfaces, including cracks and crevices in walls and floors, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings. Pet bedding may be entirely treated with this product or replaced with clean, fresh bedding after other listed areas are treated. For effective flea and tick control indoors, clean any area used by the pet. Cleaning the areas includes vacuuming floors, carpets, furniture, etc. (discard vacuum bag after use) and washing the pet's bedding, living quarters, and surrounding area. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

Outdoor Use:

[Application to vinyl and aluminum siding (particularly lightly colored, aged, weathered or otherwise damaged) may result in staining, bleaching or discoloration. Factors such as extreme heat and direct sunlight can promote damage. Always pre-test a small inconspicuous area to be treated, for colour fastness and staining. Pre-test siding. Evaluate 30 minutes after test application for potential staining. Never apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of day. Do not apply to tapestries, wall paper or similar materials that may stain.]

Outdoor Use: For the control of ants outdoors. Gently insert as far as possible into cracks and crevices in driveways, patios, sidewalks, or interlocking brick where ants hide. Depress nozzle and allow foam to fill the area. Stop spraying when the foam comes back out the crack or crevice. For best results, treat all cracks and crevices in the area where ants are found. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

Outdoors to Control Bees and Wasps (including Hornets, and Yellow Jackets) in their nests: From a distance of 2 to 2.5 metres (6-8 feet), with the wind coming from behind, point applicator wand in direction of the insect nest. Depress nozzle, and continue spraying until the opening of the nest is completely covered with the insecticide foam. Because the insects will now be unable to leave the nest, insert the applicator wand into the nest opening and fill the nest space (or void where nest is located) with the insecticide foam. If the nest is accessible, allow sufficient time for insects to become inactive before destroying the nest. APPLICATION TO NESTS SHOULD BE MADE IN LATE EVENING OR EARLY MORNING WHEN INSECTS ARE AT REST. LIMITATIONS: Do not use inside homes.

Use Tips: Avoid spraying vegetation directly. Rinse with water any desirable foliage that is contacted with spray.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. May cause eye or skin irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin, eyes and clothing. Do not inhale spray mist. Wash thoroughly with soap and warm water after using. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat. Do not store or use above 50°C as container may burst. Avoid freezing. Do not puncture or incinerate container. **Do not use this product in or on electrical equipment due to possibility of shock hazard.**

ENVIRONMENTAL PRECAUTIONS

Toxic to aquatic organisms. Toxic to birds and wildlife. Toxic to bee. Toxic to beneficial insects.

FIRST AID

If on skin or clothing, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed,** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically.

DISPOSAL

When container is empty, press button to release all pressure. Do not re-use. Do not throw into fire. Wrap in newspaper and then discard in household garbage.
