{SIDE OR BACK PANEL}

WHY SHOULD YOU USE THIS PRODUCT:

This product, when used regularly, will prevent the growth of green, black and yellow algae for complete pool enjoyment. For best results, follow our 4 step pool care program.

Step 1: Test and adjust water balance.

Step 2: Sanitize.

Step 3: Shock regularly.

Step 4: Add algaecide as directed.

DIRECTIONS FOR USE:

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

This product may be used in the same treatment program as most commonly used pool chemicals, but should not be mixed with any foreign material such as soap or other water treatment chemicals. This product works best when added in several places to the pool with the pump or circulation system running. Wait 15 minutes before entering the pool. Pools with heavy growth of algae should be cleaned prior to using this product.

SHAKE WELL BEFORE USE

- **Initial Dosage:** Add 33 mL of **HTH Algae Guard 3X Concentrate** per 10,000 L of pool water when filling the pool at the beginning of the season.
- **Maintenance Dosage:** Add 17 mL **HTH Algae Guard 3X Concentrate** per 10,000 L of pool water at 3-5 day intervals. If high temperatures prevail or the pool has unusually heavy use, add maintenance dose more frequently. If make up water is added at the rate of more than 10% of pool capacity per week, add 17 mL per 10,000 litres of fresh make up water added per week.
- **Visible Algae Dosage:** If pool has slight visible algae growth, brush pool surface where algae is present and treat with 67mL **HTH Algae Guard 3X Concentrate** per 10,000 L of pool water. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment as necessary.
- When pool is free of visible algae, use the "Maintenance Dose" as above.

DO NOT apply when swimmers are in the immediate vicinity (a 15-minute restricted-entry interval is recommended).

WINTERIZING DOSAGE: When swimming season is over, add the "Initial Dosage" above. This dosage helps to provide a measure of control of algae growth during the winter months and aids the servicing of the pool before it is returned to use the following summer.

PRECAUTIONS: DANGER. KEEP OUT OF REACH OF CHILDREN. CORROSIVE Causes irreversible eye damage and skin burns. Wear protective eyewear (goggles, face shield or safety glasses), rubber gloves and protective clothing when handling. Harmful if inhaled. Avoid breathing vapor or spray mist. Harmful if swallowed. Do not get into eyes, on skin or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse. Do not mix with any other chemical.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Treat symptomatically.

STORAGE: Keep container closed when not in use. Store in a cool, dry, well-ventilated location. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

DISPOSAL: Rinse container thoroughly before discarding. Do not reuse empty container. Offer for recycling if available, or dispose in accordance with local and provincial regulations.

For information on the disposal of unused, unwanted product contact the manufacturer or provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
