DIRECTIONS FOR USE:

HOW TO APPLY:

DO NOT apply as a space spray or broadcast application. Apply as a crack and crevice or spot treatment only. Spot treatment is localized to surface area not more than 0.2 m². Spots are not to be adjoining and the combined area of spots is not to exceed 10% of the total surface area of a room. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

RESTRICTIONS:

- DO NOT apply to any body of water.
- DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.
- Avoid application of this product when winds are gusty.
- DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash following treatment.
- DO NOT apply when people, pets or livestock are present.
- DO NOT allow people, pets or livestock to enter treated areas until sprays have dried.
- DO NOT allow spray to drip or allow drift onto non-target surfaces.
- DO NOT apply to people, pets, livestock or sources of electricity.
- DO NOT apply to furniture, mattresses, linens, toys, or clothing.
- DO NOT apply to overhead areas or in confined spaces (for example, indoors in attics, crawlspaces, small storage rooms, closets; outdoors to eaves, soffits).
- When applied indoors, ventilate treated areas after application by opening windows and doors or using fans where required to aid in the circulation of air.
- DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs). When applied to the exterior surfaces of buildings, garbage cans and on patios, porches and decks, DO NOT treat soil, turf or other plants adjacent to the treatment site.

GENERAL DIRECTIONS:

SHAKE CAN WELL BEFORE USING. Test a small inconspicuous area for color fastness & staining before full application. Do not apply to tapestries, wallpaper or similar materials that may stain. Affix the white actuator to the spray canister to apply the product as a coarse spray. Hold container approximately 30 cm from surface being sprayed and spray until wet. Thorough applications produce a coating which will vaporize into cracks and crevices to kill listed pests. Cover fish bowls when spraying. Within the specified use location, to enhance effectiveness of this product, apply this product directly to the listed pest where possible. Good sanitary practices should be maintained to prevent re-infestation.

TO KILL ANTS INSIDE BUILDINGS:

Thoroughly treat indoor building surfaces in hard to reach areas including, cracks, crevices in walls, floors and ceilings; along and behind baseboards; around water pipes and tanks; walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves,

drawers, cabinets and storage units); around sinks, drains and pipes; around interior foundations; garbage cans; localized areas of floors and floor coverings; and points of entry (e.g., around windows and doors). Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

TO KILL ANTS OUTDOORS ON THE EXTERIOR SURFACES OF BUILDINGS AND PORCHES, PATIOS AND DECKS:

For use outdoors on the exterior surfaces of buildings, garbage cans and on patios, porches and decks as a spot treatment. Apply to the outside surfaces of foundations, under eaves, around light fixtures, and places where listed pests enter (e.g., screens, doors, window frames). This product may also be applied to garbage cans and localized areas of patios, porches and decks. Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

The application of this product to vinyl and aluminum siding (particularly lightly coloured, aged, weathered or otherwise damaged) may result in staining, bleaching or discoloration. Factors such as extreme heat and direct sunlight can promote damage. Before applying to vinyl or aluminum siding, treat a small area and evaluate 30 minutes later to allow any potential staining to occur. Regardless of the test results, do not apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of the day.

TO KILL ANTS OUTDOORS ON ANT HILLS:

Directly spray ant hills and trails. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed, inhaled or absorbed through skin. Provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. Avoid breathing spray mist. Wash thoroughly with soap and warm water after using. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C as container may burst. Do not puncture or incinerate container or spray near open flame or spark, or while smoking. Do not spray asphalt shingles, as this product may stain them. Do not apply this product around equipment due to possibility of shock hazard.

ENVIRONMENTAL PRECAUTIONS: Toxic to aquatic organisms, birds, wildlife, bees and beneficial insects.

FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

2019-7185
2020-09-01

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and PCP Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Contains petroleum distillate. Vomiting may cause aspiration pneumonia. Treat symptomatically.

DISPOSAL:

Do not reuse empty container. When the container is empty, press valve to release all remaining pressure. Wrap container in several layers of newspaper and discard in garbage.

STORAGE:

Store in a cool dry area away from heat.

OPTIONAL MARKETING STATEMENTS

Revolutionary new EcoCan uses the power of air

Eco Can - the next generation in spray technology

The Eco Can delivers a quiet spray without using CFCs or hydrocarbon propellants.

Unlike products that utilise the EcoCan, normal aerosol products require that a percentage of propellant be included, the purpose of which is to expel the contents out of the can.

The Eco Can uses air pressure instead of propellant.

The Eco Can has a quiet spray.

Eco Cans do not contain propellant.

Eco Cans do not need or use hydrocarbon propellant.

Eco Cans use newer technology.

Propellants no longer needed if you use the Eco Can.

The Eco Can sprays this product as a clear solution.
