Sonic-Repel[™]
Mini

for Mice and Rats

Ultrasonic Rodent Repeller

Repels mice and rats from areas where ultrasonic sound waves are present.

DOMESTIC
FOR INTERIOR USE ONLY

REG. NO. 30840 P.C.P. ACT

READ THE LABEL AND OWNER'S MANUAL BEFORE USING
KEEP OUT OF REACH OF CHILDREN

Model RR-Mini
Direct plug-in design
Powerful 130 dB output
Covers areas up to 46 m² (495 sq. ft.)
Safe to use around non-rodent pets
Ultrasound cannot be heard by the average person.
Do not permit pets access to the area containing the device(s)
Children should not be permitted to the area containing devices(s)
For use with and in conjunction with normal control practices
Avoid excessive physical contact with the device(s) when in operation
A minimum distance of 1 m should be observed when the device is operating

IMPORTANT SAFETY INSTRUCTIONS

INSTALLATION INSTRUCTIONS

Plug the unit into an 120V AC outlet. Do not expose to moisture.

INSTRUCTIONS PERTAINING TO A RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS

WARNING - When using electric appliances, basic precautions should always be followed, including the following:

- a) Read all instructions before using the appliance.
- b) To reduce the risk of injury, close supervision is necessary when an appliance is used near children.
- c) Do not use outdoors.
- d) To reduce the risk of electrical shock, do not put unit in water or other liquid. Do not place or store unit where it can fall or be pulled into a tub or sink.
- e) Do not permit pets access to the area containing the device(s).
- f) Children should not be permitted to play in close proximity to the device(s).
- g) Avoid excessive physical contact with the device(s) when in operation.
- h) A minimum distance of 1 m should be observed when the device is operating.

SAVE THESE INSTRUCTIONS

OPERATING INSTRUCTIONS

Intended for household use. To repel rodents, plug into 120 V AC outlet. Do not block speaker with drapes, furniture or other obstructions. Do not expect immediate results. Do not open or tamper with this unit.

The Ultrasonic Tool

Ultrasound consists of electronically generated ultrasonic sound waves, broadcast at a high volume. It can cause rodents to avoid a sound protected area. While the sound can't be heard by humans, domestic pets, farm animals, birds, or fish, research proves it is irritating to rodents (including hamsters, gerbils, guinea pigs and rabbits), and can cause them to leave the transmitting area.

What is Ultrasound?

It is sound waves with frequencies too high to be heard by the human ear. The average person can hear sound waves ranging from 20 up to 20,000 cycles per second, while dogs perceive them up to 27,000 per second, and the range of other animals is even higher. When measured electronically, these frequencies are expressed in hertz, defined as a unit equal to one cycle per second. So ultrasonic sound waves are frequencies over 20 kilohertz.

Using Your Wilson® Predator™ Sonic-Repel™ Mini

- Place the equipment on a table, shelf or mount on the wall. Best placement is 0.5 to 1 m off the floor with the speaker grill aimed at known problem areas.

- Ultrasonic sound is highly directional and will be reflected by hard surfaces to literally fill a room with the sound pressure.
- Wilson® Predator™ Sonic-Repel™ Mini should be used in rooms where signs of mouse or rat activity is observed, particularly in areas where food is consumed, prepared or stored. Storage areas and paper products often attract mice and rats.

Answers to Questions about Ultrasonic Pest Repelling Devices

Q. Does ultrasonic sound kill rats and mice?

A. No. It repels rats and mice by creating an acoustically hostile environment.

Q. Which pests does Wilson® Predator™ Sonic-Repel™ Mini affect?

A. Mice and rats. NOTE: Pet rodents, such as hamsters, gerbils, guinea pigs, and rabbits may also be bothered in an ultrasonically protected area.

Q. Can ultrasound repel rats and mice in walls?

A. No. Ultrasound is directional and can't penetrate anything solid. For problems with pests in walls or foundations, contact a professional pest control operator.

Q. Can I do away with pesticides and/or traps?

A. No. Ultrasound is one tool used in an integrated pest management program. It should be utilized in combination with other pest control methods.

Q. What coverage can I expect from Wilson® Predator™ Sonic-Repel™ Mini?

A. One Wilson® Predator™ Sonic-Repel™ Mini unit is capable of covering 46 m². Most homes will require multiple units. Ultrasound is highly directional and will be reflected by hard surfaces to fill a room with ultrasound. Soft surfaces such as drapery will absorb sound and reduce the area protected by Wilson® Predator™ Sonic-Repel™ Mini.

How it works:

- Wilson® Predator™ Sonic-Repel™ Mini produces ultrasonic waves in a frequency range of 30kHz to 64kHz at 130dB from the ultrasonic device.
- Can repel rodents from areas where ultrasonic soundwaves are present. Use Wilson® Predator™ Sonic-Repel™ Mini with other pest control methods in controlling rats and mice.

Ideal for:

Homes and Apartments

Farm Buildings

Boats and RVs

Domestic Kennels and Stables

Benefits:

Easy to Use – Compact unit plugs into any 120V AC wall outlet.

Won't affect humans, domestic pets, farm animals, birds or fish; doesn't interfere with radio or television sets, electrical appliances, garage door openers, or pacemakers.

Impacts on:

Repels Rats and Mice.

(Do not keep rodent pets, gerbils, rabbits, hamsters or guinea pigs in an ultrasonically protected area.)

ONE YEAR LIMITED WARRANTY

Premier Tech Home & Garden Inc. warrants to the original consumer/purchaser that your Wilson® Predator™ Sonic-Repel™ Mini and will be free from defects in workmanship and material for ONE YEAR from the date of purchase. Your Wilson® Predator™ Sonic-Repel™ Mini will be replaced or the purchase price refunded at dealer option, during the warranty period. Return it to your dealer. The warranty does not apply to Wilson® Predator™ Sonic-Repel™ Mini units damaged by accident, abuse, misuse, improper voltage, water damage, nor does it apply if the product has been altered or repaired by anyone other than the manufacturer. Your dealer may require proof of purchase should you need to exercise this warranty. We recommend that you file your purchase receipt with this warranty.

TWO YEAR EXTENDED WARRANTY

Premier Tech Home & Garden Inc. offers extended coverage should a defect be identified after the one year limited warranty has expired. Premier Tech Home & Garden Inc. will repair or replace the defective product with the same or functional equivalent (at factory option) for a period not exceeding three years from date of purchase, for a service charge only.
