NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.

FIRST AID: If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and PCP Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Contains petroleum distillate. Vomiting may cause aspiration pneumonia. Treat symptomatically.

DIRECTIONS FOR USE

SHAKE CAN WELL BEFORE USING.

FOR OUTDOOR USE

TO CONTROL WASPS, HORNETS AND YELLOW JACKETS IN THEIR NEST . The best time to spray the product to nests is in late evening or early morning, during cooler temperatures, and when most bees and wasps are at rest inside the nest. Observe for little activity around the nest opening. Spray only if the air is still. Stand at a safe distance/2 to 2.5 m from the nest. **DO NOT** stand directly under the nest. Treated insects may fall out of the nest and die.

Hold container upright at arm's length. Point the spray nozzle in direction of the bee or wasp nest. First, spray into the opening of the nest. Then spray the rest of the nest until it is saturated. Allow sufficient time for insects to die. Any insects returning to the nest after treatment will be killed. Wait at least 48 hours or until no signs of activity before removing the nest. **DO NOT** exceed 32g per m² (9 seconds per m²). Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

USE LIMITATIONS **DO NOT** use inside buildings. **DO NOT** apply to any body of water. **DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Avoid application of this product when winds are gusty. **DO NOT** apply when people, pets or livestock are present. **DO NOT** allow people, pets or livestock to enter treated areas until sprays have dried. **DO NOT** allow spray to drip or allow drift onto non-target surfaces. **DO NOT** apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs). Avoid spraying vegetation and non-target structural surfaces. Hose off any plants or non-target structural surfaces that are contacted with foam with water. **DO NOT** apply to people, pets, livestock or sources of electricity. **DO NOT** use as a space spray or broadcast application. **DO NOT** contaminate food/feed. **DO NOT** apply to surfaces that may come into contact with food/feed. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash following treatment. **DO NOT** use as a space spray or broadcast application.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through skin. Do not breathe vapors or spray mist. Causes moderate eye irritation. May irritate skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. **DO NOT** apply this product around equipment due to possibility of shock hazard. Provide adequate ventilation of area being treated. Contents under pressure. **DO NOT** puncture or incinerate container or spray near open flame or spark, or while smoking. **DO NOT** place in hot water or near radiators, or stoves or other sources of heat, or store or use above 50°C as container may burst. **DO NOT** spray asphalt shingles, as this product may stain them.

ENVIRONMENTAL PRECAUTIONS: This product is intended for use on yellow jackets, hornets and wasps only. Toxic to aquatic organisms. Toxic to bees. Avoid application around blooming plants. If applications must be made during the blooming period, restrict applications to evening when most bees are not foraging. Toxic to beneficial arthropods (which may include predatory and parasitic insects, spiders, and mites). Minimize exposure to non-target areas.

DISPOSAL: DO NOT reuse empty container. When container is empty, press valve to release all remaining pressure. Wrap container in several layers of newspaper and discard in garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

STORAGE: Store in a cool dry area away from heat. Store this product away from food or feed.

Revolutionary new BOV can uses the power of air

No propellant

The BOV can delivers a quiet spray without using cfcs or hydrocarbon propellants.

Sprays in any direction, even upside down

The BOV can uses air pressure instead of propellant.

The BOV can has a quiet spray.

BOV can - the next generation in spray technology

BOV cans do not contain propellant.

BOV cans do not need or use hydrocarbon propellant.

BOV cans use newer technology.

Propellants no longer needed if you use the BOV can.

The BOV can sprays this product as a clear solution, that is non-foamy, non-greasy.
