**NOTE:** Text in “[*Italics*]” represents Optional or Alternative Text

**Selection of Treatment Areas:** *[House mice are excellent climbers and will infest all floors in a structure. Mice will only range approximately 10 m from their nesting area seeking food.]* Place bait in locations where mice travel and will most likely find and consume the bait. Place along walls, in corners, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where house mice or their signs have been seen.

**DIRECTIONS FOR USE:** Remove bait station from package and place in horizontal position with side against wall, exposing entrance. Place two (2) bait stations every 2-4 m within the treatment area. If a bait station is not disturbed after several days, move it approximately 1 metre. Four (4) bait stations per location may be necessary at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse activity cease. Replace bait stations if contents are consumed or contaminated. Wearing rubber gloves, collect and dispose of all dead animals and unconsumed bait properly. To prevent reinfestation, eliminate food, water and harbourage as much as possible. If reinfestation occurs, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations as necessary.

**USE LIMITATIONS:** Bait MUST be placed in tamper-resistant bait stations. Use this product for the control of House mice in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated on this label. **DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO PETS, DOMESTIC ANIMALS OR NON-TARGET WILDLIFE.** DO NOT place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

**PRECAUTIONS:** **KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK.** May be harmful or fatal if swallowed or absorbed through the skin. Rubber gloves must be worn when handling product and when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing, separately from other laundry, with soap and hot water before reuse. **KEEP AWAY FROM FEED AND FOOD.** This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

**FIRST AID:** **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed:** for all cases of human ingestion call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If pet or livestock poisoning is suspected,** immediately contact a veterinarian. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Vitamin K<sub>1</sub> in the form of intramuscular or subcutaneous injections or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

**STORAGE:** Store in a cool, dry place away from other chemicals and food or feed. Store product not in use, in original container, in a secure location inaccessible to children and non-target animals.

**DISPOSAL:** Wrap used or damaged bait stations and discard in household garbage. DO NOT use damaged bait stations. Recycle empty carton.

**RODENT DISPOSAL:** Dead rodents should be securely wrapped and placed in closed containers and disposed of with garbage. Otherwise, securely wrap carcasses and bury to a depth that will make them inaccessible to scavengers.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.

**For additional product information or in case of emergency, spills or fire, call toll-free 1-800-268-2806. [www.wilsoncontrol.com](http://www.wilsoncontrol.com)**
