DIRECTIONS FOR USE: To be used only in the manufacture of a bactericide/fungicide

registered under the *Pest Control Products Act*.

PRECAUTIONS: PREVENT ACCESS BY UNAUTHORIZED PERSONNEL. Corrosive to eyes and skin. Fatal or poisonous if swallowed. May be fatal if inhaled. **DO NOT** get in eyes, on skin or on clothing. **DO NOT** breathe vapour of concentrate. Strictly observe all precautions for handling and using pesticides.

Wear goggles or a face shield, coveralls over long-sleeved shirt and long pants, boots and chemical-resistant gloves while transferring/handling the product. This is a strong oxidizing agent.

Ensure that hydrogen peroxide air concentrations in the workplace do not exceed the exposure levels established by occupational health and safety authorities in your jurisdiction. If values are unknown, or exceed these levels, wear NIOSH-approved respiratory protection.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds or other waters. Do not cause or permit this product to enter surface water or ground water through spillage, storm water runoff, waste disposal, cleaning of equipment or by any other means. Toxic to aquatic organisms. Do not contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product is corrosive and severely irritating to the eyes, skin and mucous membranes. No specific antidote is available. Probable mucosal damage may contraindicate the use of gastric lavage. Apply symptomatic therapy.

DISPOSAL: Canadian manufacturers should dispose of unwanted active ingredients and containers in accordance with municipal or provincial regulations. For additional details and clean up of spills, contact the manufacturer or the provincial regulatory agency.

STORAGE: Store in a properly vented container or in an approved bulk storage facility. Do not block vents. Product should be kept cool and vented to avoid explosion hazard. Since hydrogen peroxide is a strong oxidizing agent, contact with combustibles may cause fire.

Store in original containers in a well-ventilated, cool, dry and secure area. Ship and store away from food, fertilizer, feed and seed. Keep containers tightly closed.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
