ON & GONE
Solution

FOR MISCELLANEOUS USE, LAUNDRY, SWIMMING POOLS, INDUSTRIAL
RECIRCULATING WATER SYSTEMS/INDUSTRIAL, COMMERCIAL ORNAMENTAL
WATER SYSTEMS, AND COOLING TOWERS USES

WARNING CORROSIVE

DANGEROUS GAS FORMED WHEN MIXED WITH ACID.
READ THE LABEL BEFORE USING

COMMERCIAL

REGISTRATION NO. 32162 PEST CONTROL PRODUCTS ACT

GUARANTEE: Available Chlorine, present as Sodium Hypochlorite 10.3%

Laboratoire Campeau & Bouchard Inc.
61 rue Des Menuisiers, local 106
Sainte Anne Des Plaines, Qc. J0N1H0

Telephone: 514-642-6669 / 438-496-6676

NET CONTENTS: 20-1100 L, Bulk

DIRECTIONS FOR USE:

MISCELLANEOUS USES: Removes stains and deodorizes toilet bowls, bath, garbage cans, sick rooms, linoleum, woodwork, tiles, counter sinks, refrigerators. Add 15 mL of ON & GONE per 1 L of water. Use this same dilution for dish water; do not use for silverware and aluminium. Do not mix with toilet bowl cleaner, rust remover, ammonia or acids.
LAUNDRY: Dilute 40–50 mL of ON & GONE in 1 litre of water and add the dilution to wash water before adding laundry. Safe for nylon, orlon, terylene and all fast colours. Do not use on wool, silk, mohair, Lycra, unfast colours or leather.

SWIMMING POOLS: Maintain recommended daily levels as determined by testing kit.

Free available chlorine: 1.0-3.0 ppm

pH: 7.2-7.8

Total alkalinity: 100-120 ppm Calcium hardness: 200-300 ppm

Initially superchlorinate pool water by adding to the pool 1 L of ON & GONE per 10,000 L of pool water. For best results superchlorinate at dusk.

Chlorinate daily to maintain proper chlorine residual with 250 mL of ON & GONE per 10,000 L of pool water, or as needed.

NOTE: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

Superchlorinate weekly with 1 L of ON & GONE per 10,000 L of pool water when average daily temperature is 25 - 32°C. Otherwise, superchlorinate every other week.

For visible algae, superchlorinate using 2 L of ON & GONE per 10,000 L of pool water. Heavy algae infestation may require dosages up to 3 L per 10,000 L of pool water. Vacuum pool when dead algae settles.

For wading pools, chlorinate daily to maintain a chlorine residual of 3-5 ppm by adding 45 mL of ON & GONE per 1000 L of pool water, or as needed.

NOTE: For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by addition of stabilizer (cyanuric acid).

INDUSTRIAL RECIRCULATING WATER SYSTEMS/INDUSTRIAL, COMMERCIAL ORNAMENTAL WATER SYSTEMS

This product is recommended for the control of bacteria, algae and fungi. Add sufficient amount of this product to maintain a free residual of 0.6 to 1.0 ppm free chlorine. For shock chlorination, the recommended dosage of this product is 50 ppm, based on total system volume. This will develop a free chlorine residual of 1 to 2 ppm for a period of 1 to 2 hours. Shock feeding may be

2 on a 24 hour basis but no less than twice per week.

Not for use in ornamental water systems including fish.

COOLING TOWERS: Add separately to system. Do NOT mix with other chemicals. Badly fouled systems should be mechanically cleaned before treatment is begun. Initial shock dosages of 100 to 1000 ppm of ON & GONE is recommended. Repeat initial dosage until

1.0 ppm free chlorine residual is established for a least 4 hours. After control is evident, repeat dosages of Product as needed to maintain a free chlorine residual of 0.6 ppm in the system.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.

Dangerous gas formed when mixed with acid.

Do not mix with any other chemical.

Avoid contact with skin and eyes.

Harmful if swallowed.

Do not re-enter treated areas until 2 hours after spray or fogging application.

Wear goggles or a face shield, chemical-resistant gloves, long pants, a long-sleeved shirt, shoes and socks when handling this product.

Keep container closed and store in a cool location.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and other aquatic organisms.

It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

FIRST AID TREATMENT:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

STORE UPRIGHT IN A COOL DARK PLACE, AWAY FROM HEAT AND SUNLIGHT. PRODUCT NOT AFFECTED BY FREEZING. RETURN EMPTY CONTAINER WITH FREIGHT, OR DISPOSE OF CONTAINER AS FOLLOWS:

DISPOSAL:

Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.

Follow provincial instruction for any required additional cleaning of the container prior to its disposal.

Make the empty container unsuitable for further use.

Dispose of the container in accordance with provincial requirements.

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency.

Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.
