**INTEROX® CPMC-50**  
**Hydrogen Peroxide**  
Acaricide

FOR MANUFACTURING, FORMULATING OR REPACKAGING

Solution

ACTIVE INGREDIENT:  
Hydrogen Peroxide --- 50.0%

**REGISTRATION NO. 31392**  
**PEST CONTROL PRODUCTS ACT**

**DANGER**  
**POISON**

**DANGER – CORROSIVE TO EYES**  
**DANGER – SKIN IRRITANT**

READ THE LABEL BEFORE USING

PREVENT ACCESS BY UNAUTHORIZED PERSONNEL

Manufactured and Distributed by:

Solvay Chemicals Inc.  
1130 Independence Parkway South, La Porte, TX 77571 USA  
1-800-SOLVAYC (1-800-  
765-8292)

Net Contents: XXXX L

#### DIRECTIONS FOR USE

To be used only in the manufacture of a pesticide registered under the Pest Control Products Act.

#### PRECAUTIONS

**PREVENT ACCESS BY UNAUTHORIZED PERSONNEL.** Corrosive to eyes and skin. May cause irreversible eye damage. Causes skin and mucous membrane irritation. **DO NOT** get in eyes, on skin or on clothing. May be harmful if absorbed through the skin. May be fatal if inhaled. **DO NOT** breathe vapour of concentrate. Fatal or poisonous if swallowed. Strictly observe all precautions for handling and using pesticides.

Wear goggles or a face shield, coveralls over long-sleeved shirt and long pants, boots and chemical-resistant gloves while transferring/handling the product. This is a strong oxidizing agent. Ensure that hydrogen peroxide air concentrations in the workplace do not exceed the exposure levels established by occupational health and safety authorities in your jurisdiction. If values are unknown, or exceed these levels, wear NIOSH-approved respiratory protection.

#### PHYSICAL OR CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water. INTEROX® CPMC-50 Hydrogen Peroxide is not combustible; however at temperatures exceeding 69°C decomposition occurs releasing oxygen. The oxygen released could initiate or promote combustion of other materials.

#### FIRST AID

**If Swallowed:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration number with you when seeking medical attention.

#### ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds or other waters. Do not cause or permit this product to enter surface water or ground water through spillage, storm water runoff, waste disposal, cleaning of equipment or by any other means. Toxic to aquatic organisms. Do not contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

#### TOXICOLOGICAL INFORMATION

Treat symptomatically.

#### STORAGE:

Never return INTEROX® CPMC-50 to the original container after it has been removed. Store in a properly vented container or in an approved bulk storage facility. Do not block vents. Product should be kept cool and vented to avoid explosion hazard. Since hydrogen peroxide is a strong oxidizing agent, contact with combustibles may cause fire.

Store in original containers in a well-ventilated, cool, dry and secure area. Ship and store away from food, fertilizer, feed and seed. Keep containers tightly closed.

#### PROCEDURE FOR LEAK OR SPILL

Stop leak if this can be done without risk. Shut off ignition sources; no flames, smoking, flares or spark producing tools. Keep combustible and organic materials away. Flush spilled material with large quantities of water. Undiluted material should not enter confined spaces.

#### DISPOSAL:

Canadian manufacturers should dispose of unwanted active ingredients and containers in accordance with municipal or provincial regulations. For additional details and clean up of spills, contact the manufacturer or the provincial regulatory agency.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
