Piperonyl Butoxide .....	1.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

POISON

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Product Act* to use this product in a way that is inconsistent with the directions on the label.

**FIRST AID:**

**IF SWALLOWED:** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** This product contains petroleum distillates. Vomiting may cause aspiration pneumonia. Treat symptomatically. Skin exposure may cause transient sensations (tingling, burning, itching, numbness). Other symptoms of exposure could include respiratory effects (such as cough, respiratory irritation, or shortness of breath), nausea, headache or dizziness.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Avoid breathing spray mist. Wash exposed skin after use.

**TO CONTROL:** ants, cockroaches, silverfish, spiders, crickets, clover mites, carpet beetles, and clothes moths.

**DIRECTIONS FOR USE:**

**For Indoor Use at Buildings**

Use a suitable sprayer which applies a coarse spray for surface spraying. This product is ready to use. Do NOT dilute with water. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.. Insects must be contacted to be killed.

**Use Limitations**

- DO NOT apply to overhead areas or in confined spaces (e.g., attics, crawlspaces, small storage rooms, closets)
- Ventilate treated areas after application either by opening windows and doors or using fans, where required, to aid in the circulation of air.
- DO NOT apply when people or pets are present.
- DO NOT apply to surfaces that may come into contact with food/feed. Cover or remove all food/feed. Cover all food/feed processing surfaces, equipment and utensils or thoroughly wash them following treatment. Any food/feed accidentally contaminated with spray solution must be discarded.

- DO NOT allow people or pets to enter treated areas until sprays have dried.
- DO NOT allow spray to drip or allow drift onto non-target surfaces.
- DO NOT apply using stationary or handheld fogging or misting equipment.
- DO NOT apply as a space spray. Space spray: Space application is a suspension of fine droplets (0.1 to 100 µm) in the air.

#### **How to Apply**

**DO NOT APPLY AS A SPACE SPRAY OR BROADCAST TREATMENT.** Apply as a crack and crevice, perimeter, spot or furniture bookcases, chests and drawers only, cabinets only. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings. Perimeter application is less than 0.3 m wide along the edges of a room to baseboards, wall-floor and ceiling-wall joints, and around doorways or windows. Spot application is localized to a surface area not more than 0.2 m<sup>2</sup>. Spots are not to be adjoining and the combined area of spots is not to exceed 10% of the total surface area of a room.

Furniture treatment: *broadcast application* covers large areas of the entire surface of items; *crack and crevice treatments* are applications to junction points on items; and *spot application* is up to 10% of the surface of the item;

**DO NOT exceed 70 mL of product per m<sup>2</sup> for all indoor surface applications.**

**To control ants, cockroaches, silverfish, spiders, crickets, and clover mites:** Thoroughly treat indoor building surfaces, including cracks and crevices in walls, floors and ceilings; along and behind baseboards; walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., cabinets and storage units); around sinks, drains and pipes; localized areas around garbage cans; and other building elements where listed insects are found. For silverfish, also spray the cracks and crevices in bookcases. Remove all objects before treatment of bookcases where books, clothing, toys, towels and other items are stored. Treated bookcases must be dry before replacing stored items. For ants, also spray trails, nests and points of entry (e.g., around windows and doors). For clover mites, also spray points of entry (e.g., around windows and doors). For spiders, also spray localized areas of floors and floor coverings..

**To control carpet beetles:** Spray edges of carpeting and underneath carpets and rugs. Make localized applications to floors and baseboards.

**To control clothes moths:** Remove all objects before treatment of chests and drawers where clothing are stored. Air clothing for several hours in sunlight, if possible. Spray thoroughly in empty chests and drawers, directing the spray into cracks, crevices and joints. Treated storage furniture must be dry before replacing stored items. After airing, lightly spray infested clothing, holding container at least 1 m from fabric to avoid staining. Only apply to clothing which can be laundered. Treated clothing must be laundered prior to wearing.

Within the specified use location, to enhance effectiveness of this product, apply directly to the listed pests where possible. Treatment must only be repeated after 7 days if pest problem persist or reoccurs. Good sanitary practices should be maintained to prevent re-infestation.

**STORAGE:** Store this product away from food or feed.

**DISPOSAL:** Do not reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

**EMERGENCY TELEPHONE NUMBER:**

In case of Medical emergencies or health and safety inquiries, or in case of fire, leaking or damaged containers, information may be obtained by calling **1-800-498-5743**.
