**SCOTTS® 2-IN-1 MOSS CONTROL
READY-TO-SPRAY FOR LAWNS AND HARD SURFACES**

- Kills moss not lawns
- Fast-acting
- Non-staining

Use Sites/Pests: Controls moss, algae, lichens & liverworts on and around homes, home greenhouses and other buildings. Can be used on roofs (cedar & composition shingles); decks & fences; siding (cedar, stucco); driveways, walkways & patios (gravel, pavement, asphalt, brick, stone & concrete); growing containers; other structural surfaces; hardened bark of trees; lawns; ornamental gardens; cultivated areas; exteriors of motor homes & boats.

APPLICATOR DIRECTIONS:

[ILLUSTRATION] Connect:	<ul style="list-style-type: none"> • Connect sprayer to hose. • Turn on water.
[ILLUSTRATION] Spray:	<ul style="list-style-type: none"> • To begin spraying, point nozzle in the direction you want to spray. • With thumb slide trigger completely forward to the ON position. • Spray evenly over measured area
[ILLUSTRATION] Finish:	<ul style="list-style-type: none"> • To STOP spraying, slide thumb activation switch backward to OFF position. • Turn off water. • Relieve water pressure by sliding thumb switch to WATER position until water slows to a drip. Then, slide switch back to OFF position. • Disconnect sprayer from hose.

DIRECTIONS FOR USE:

One litre of product will treat between 20 to 40 m². Keep sprayer moving to get an even application.

Lawns and Ornamental Gardens: Test spray a small area prior to using. If moss is dry, thoroughly wet moss with water before treating. Next, thoroughly soak moss with

Scotts® 2-in-1 Moss Control Ready-to-Spray for Lawns and Hard Surfaces. One litre of product will treat 20 to 40 m². For thick moss (greater than 2.5 cm), 1 L of product will treat 10 m².

Follow-up on Lawns and Ornamental Gardens: Lightly rinse treated areas with water (50 mL/m² or less) 15 to 30 minutes after treatment to avoid grass and plant damage. Do not heavily irrigate for at least 6 hours after treatment. Repeat treatment annually, or when new moss or algae are visible.

If it rains within one day of treatment, an additional application may be required. Moss will turn brown after a few days. People and pets can enter the treated area after spray has dried. Areas can be re-sown 5 days after treatment.

Motor Homes and Boats (in dry dock): Wear gloves during application. Use on outside surfaces only. Spray thoroughly with Scotts® 2-in-1 Moss Control Ready-to-Spray for Lawns and Hard Surfaces. Scrub surfaces thoroughly with a brush after application, then rinse with water. Repeat as necessary.

Other Sites: If moss is dry, thoroughly wet moss with water before treating. One litre of product will treat 40-67 m². For thick moss (greater than 2.5 cm), 1 L of product will treat 20 m². Repeat treatment annually, or when new moss or algae are visible.

WHEN TO USE: Use at any time during the year. Best results are obtained with actively growing moss in the spring or fall. Do not use on lawns when temperature exceeds 30°C. During warmer weather apply late in the day. Application during cold weather may delay appearance of moss control.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Causes eye and/or skin irritation. Do not get in eyes, on skin or on clothing. Wear waterproof gloves when handling this product and during application. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Freshly treated areas may be slippery. If spilled, use absorbent materials and dispose of soiled materials in an approved manner as described in the Disposal section of this label. Do not store at temperatures below 0°C.

ENVIRONMENTAL HAZARD:

This product is toxic to aquatic organisms. Do not allow waste water, effluent or runoff containing this product to enter lakes, streams, ponds or other waters.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

FIRST AID:

IF SWALLOWED: Call poison control centre or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

Do not reuse empty container. Dispose of empty container with household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.
